BURNS, HARNEY COUNTY, OREGON, NOVEMBER 2, 1901.

NO. 49.

The Times-Herald.

THE MCKINLEY MEMORIAL

might not be able to pass, adopted a rule that no license be issued, but that a permit be granted for a limited time until such applicants prepare themselves in such branches as they might be deficient in.

June 13, 1891, it is asserted that Volp, under said rule, was granted a permit to practice medicine until December, 1891, and that he might in the meantime perfect himself in the studies in which he was imperfect.

March 2 1892, it is stated that Volp presented himself before the board. His examination was again unsatisfactory, and he was granted permission to practice until March 1893.

The permits, it was alleged, were not numbered, as in the cases where license were issued, and were not recorded in the registry of license. Volp accepted the permits with the agreement to qualify himself, and that he would at the expiration of the limited time present himself for examination.

Prior to March 30, 1895, it is charged that Volp changed the permit granted to him in June 1891, and erased the time limit, "December, 1891," and presented himself to the present Board of Medical Examiners and said he was a licensed physician, and the board believing his statement, recorded the same as required by the act of 1895; Volp thereafter, it is alleged, obtained a certified copy of the record from the county clerk and filed it with the county clerk of Harney county; that May 23, 1900, the Medical board filed a charge that Volp had fraudulently obtained their indorsement to the permit which he received in 1891, serving him with a copy of the complaint, and after a hearing January 4, 1901, revoked his license.

This defense is made in view of the decision of Judge Frazed that a medical license once issued is good for all time, and not subject to limitation, and can only be revoked after a trial and conviction for any offense enumerated in the statute.—Oregonian.

### Pueblo a lively Mining Camp.

There is much general good feeling through the Pueblo mining district, so says H. Hughson, who is extensively interested in the development of copper claims in that vicinity.

The mines being developed are very rich and will be the means of distributing large sums of money in the valleys of Paradise in Nevada, and Surprise in Modoc, California, from which points most of the supplies are shipped; though at present Winnemucca in Nevada, is the general point of shipment for mining supplies.

In the Pueblo district development work is being pushed by the companies representing a corporation of capital. This district has a one 5 stamp mill and also a Huntington mill. At present a deal is on in the Vickersburg district, adjoining that of the Pueblo, for a quartz claim from Jim A. Ashdown, et al to the DeLamar Co. of Utah for over \$40,000.

On Pueblo mountain a group of copper mines are being developed. These claims are owned by the Sumpter mining men and local men of the district.

The Nelson copper group, on Jackson mountain has been sold for \$42,000 to a San Francisco firm, while a mining company has purchased the Old Badger mine on Bartlett Creek in the old Varyville district and active work has been resumed.

Mr. Hughson predicts the Pueblo and other adjacent districts will constitute some of the richest mining districts in Nevada. He also says exceedingly good coal prospects have been found, and the outlook for the opening up of some rich coal mines in the vicinity of Virgin valley is of the best.—Lakeview Rustler.

We have the best stock of wall paper and Japanese matting ever brought from the railroad.—Burns Furniture Co.

WILL DICTATE HIS MESSAGE

ROOSEVELT WANTS NO HELP ON DOCUMENT TO CONGRESS.

Heads of Departments Will be Expected to Keep Congress Informed on Matters in Their Spheres.

A recent dispatch from Washington says: All members were present at the meeting of the cabinet today. The president discussed various features of his forthcoming message to congress and also appointments which are to be made within a short time.

The consultations between the president and his cabinet officers were especially full, owing to the determination which Mr. Roosevelt has reached to write all of his own messages to congress and to do it on original lines. Heretofore the secretary of state has written that portion covering foreign relations and the other cabinet officers each have contributed a chapter on his respective department. The president has determined to do away with this detailed statement of the affairs of each department. He will devote his message only to such topics as he chooses to lay particularly before the attention of congress, leaving the representatives of cabinet officers to acquaint congress with the details of the administration.

Secretary Hay referred to the case of Miss Stone and in answer to questions told of a message received today from Consul Dickinson at Sofia and Charge Spencer Eddy at Constantinople, which threw no light on the present hiding place of Miss Stone.

### Boring for Artesian Water.

The machinery was placed and the work of sinking for artesian water on lot 17, between Boyer Bros. & Co's store and the Hotel Ontario was begun by Contractor Ed Ashley Wednesday morning.

The contract calls for the sinking of the well to a depth of five hundred feet within which depth it is confidently expected to encounter a substantial flow of water. However, if the flow is not obtained at that depth the well will be sunk still deeper, 1,500 feet if necessary.

David Wilson bears one-half of the expense of sinking the well, the other half being subscribed by the citizens of Ontario.

In the sinking of this well, which is in every way a commendable enterprise, much speculation is indulged in by our people. Many are of the opinion that instead of artesian water oil will be encountered in paying quantities and that it will demonstrate as claimed by many, that we have here in the Snake river valley, the greatest oil fields in America, while others seem to think, and with good grounds, too, considering former investigations in this vicinity, that natural gas will be discovered in quantities sufficient for fuel and lighting Ontario and neighboring towns. One thing is certain, the well will afford a plentiful supply of good, wholesome water if nothing more.—Ontario Argus.

The Tokio Nippon publishes this matrimonial advertisement: "I am a beautiful woman. My abundant undulating hair envelops me in a cloud. Supple as a willow is my waist. Soft and brilliant is my visage as the satin of the flowers. I am endowed with wealth sufficient to saunter through life hand in hand with my beloved. Were I to meet a gracious lord, kindly, intelligent well educated and of good taste, I would unite myself with him for life, and later share with him the pleasure of being laid to rest eternal in a tomb of pink marble."

The Richardson & James saw mill is again turning out lumber of all kinds. The mill is located in good timber with a good road and is ready to fill any size order sent in. They also make the best shingles. Call for prices.

NATIONAL ASSOCIATION ISSUES A PUBLIC STATEMENT.

Arch is Proposed to be Erected at the Washington Approach of New Memorial Bridge Across Potomac.

Washington, Oct 27.—The Wm. McKinley National Memorial Arch association today issued this statement to the public:

"President McKinley's memory is enshrined in the hearts of his countrymen, but their unexampled affection demands expression in a material memorial, national in character, to be erected at the national capitol, the scene of his greatest labors and achievements. The William McKinley National Memorial Arch association has been incorporated under the laws of the District of Columbia to meet this desire by the erection of a national memorial arch in honor of President McKinley, in the city of Washington, by national popular subscription.

"President Roosevelt has accepted honorary membership in the association.

"It is proposed to place the memorial arch preferably at the Washington approach to the Memorial bridge across the Potomac connecting Washington with Arlington, which President McKinley earnestly desired and recommended to congress as 'A monument to American patriotism.'

"Contributors to its fund will be made members of the William McKinley National Memorial Arch association. The treasurer, Hon. Lyman J. Gage, secretary of the treasury of the United States, Washington, D. C., will receive all contributions and will forward certificate of membership of all contributors.

"Contributions of money may be handed to postmasters, managers of telegraph, telephone and express offices or deposited with banks or other financial institutions and newspapers. They are hereby authorized and requested to receive and transmit contributions to the treasurer. The association heartily invites and confidently expects the co-operation of governors of states and territories, the mayors of cities and all other public officials, of the press of the country, of the churches, colleges and schools and of all organized cities and requests that they will take immediate action to protect its objects by making and securing subscriptions. All communications, except remittances, should be addressed to Thomas F. Walsh, secretary, Washington D. C.

"The association is in entire sympathy with the proposition to erect a suitable memorial to the late president at his grave in Canton, Ohio.

### PERMIT NOT A LICENSE.

Novel Defense Made by State Medical Examiners in a Suit.

In answer to the suit of Dr. Heinrich Volp against the Oregon State Board of Medical Examiners, asking that the action of the board revoking his license be declared to be illegal, the novel defense is made that the board adopted a rule of granting permits to persons to practice medicine who were lacking in some particulars. It is said that Volp twice failed to pass an examination sufficiently good to entitle him to a license, but just the same was both times given a permit vesting him with authority to hang out a doctor's sign and do the best he could.

The board of Medical Examiners is now composed of H. L. Saylor, Byron E. Miller, W. E. Caril, A. B. Gills and H. E. Correy, and they were appointed under the act of 1895.

The answer refers to the medical acts passed in 1889 and 1891, and states that the former board, in order that no hardship might be worked or injustice done those applicants for license who might in some branches pass examinations required, but in other branches
