MARRIED—Wednesday, April 2, at the residence of Mr. and Mrs. Milo Cushing, Deil Defenbaugh and Kate Deiner, Justice Ed Catlow performing the ceremony. The contracting parties are popular people of the southern part of the county, where Mr. Defenbaugh has been in the stock business for the past 19 years. As the gentleman came to Harney valley from "old Missouri" in company with the writer it is from the heart that well wishes and happiness are extended. They left for home yesterday.

The former members of Prof. Merrill's vocal class are looking forward with pleasure to the opening of another term of his thorough instructions which begin next Monday evening in the Christian Science church. Since beginning to teach in our little city last summer, Prof. Merrill has shown his thorough knowledge of music and his simple methods make his teaching more popular as any child cannot fail to understand and get the right conception. We gladly recommend him to the people of Burns who have children of musical talent. Prof. Merrill is a graduate of the Leipzig School of Music and has spent many years in teaching.

Have you registered?

The matter of seeing to it that all voters are registered should not be overlooked. We are informed registration is slow and the time is short between now and the time to close the registration books. Each voter must register even though he was on the books two years ago.

We are informed by a gentleman this morning that the "bolters" are asking to get back into the republican party—meaning the Newell wing—and had made overtures to that end. It is time these two factions get together if they expect to have a "ghost of a show" at the coming election. Every move thus far has been an aid to democratic success. If each faction would rather see the democrats make a clean sweep than make concessions, it suits us; but will they regret it later?

Did J. N. Williamson, the republican nominee for congressman, make a speech at the recent meeting of the Stock Growers' Association at Chicago, in favor of leasing the range? Some are under that impression.
