J. J. Donegan returned this evening, via Canyon, from the scene of the late conflict at Salem, where he was a prominent member of the "third house" and helped to elect Senator Fulton. Jimmie had his money, or judgment rather, on the right man this time and is much pleased with the outcome of the contest.

Family Records at the Burns Furniture Store. These records are something superior, because they include a complete record of relatives on both sides of the house for three generations. Call examine and we know you'll buy. Something every family should have.

The telephone company should arrange to have connections at all outside points from Burns during nights. Two instances lately physicians were wanted at outside points and could not be reached by phone. The people of this section should demand such service.

There may be a few local nimrods in this vicinity who do not know that Bill McKinney has a new automatic extracting, hammerless shotgun of the very latest improved pattern. It does not as a general thing, take the public long to find a boy with his first pair of boots, but this may have escaped the notice of a few.

Miss Gladys Hopkins, of Weiser Idaho, sister to our fellow townsman V. J. Hopkins, arrived here on last Wednesday's stage and will make her home with Mr. and Mrs. Hopkins for the present. We are informed that the young lady is a dressmaker and will open parlors in our city immediately. No doubt she will be liberally patronized.

This office turned out some small posters yesterday announcing a social dance by the B. A. C., Friday night next. We were laboring under more or less excitement and fixed the date March 6, '02, when it should have been '03. Under the circumstances we should be pardoned and will state it was the fault of our youngest typo mentioned elsewhere.

The very enterprising firm of Schwartz & Budelman will be found in the new Fry brick before the end of the week. The painters are completing the work on the shelving, counters, etc., in nice shape. One new feature in the new building is a shoe department well arranged and handy. They will soon open up some new attractions in their lines.

The manager of this great religious weekly has been connected with the newspaper business since 1889 and during that period has had a varied experience in regard to working with and employing printers. He has found that girls make the best and most satisfactory types, and while he may not spend the rest of his days in a print-shop, he is pleased to announce that another type of the best kind has been added to his force. However, she is quite young and inexperienced but bids fair to be a "cracker-jack" in the "art preservative." She arrived at his home yesterday evening, Feb. 27th, and weighed 9 lbs. If he has good luck he expects soon to have force enough to get out a daily.

Dr. Burrows left early yesterday morning for Diamond, having been called to see Mrs. M. Horton. As the phone from the Narrows was not connected during Thursday night the courier had to ride all the way here to summon him.

Mr. and Mrs. Isaac Schwartz entertained a few of their friends at their beautiful home last evening, the occasion being the second anniversary of their marriage. The host and hostess are among the most popular society people in our city and know well how to entertain. The friends present took their departure at a late hour, wishing them many happy returns. Those present were, Dr and Mrs. Marsden, Judge and Mrs. Levens, Mr and Mrs. Trisch, Mr and Mrs. Thornton-Williams, Mr. and Mrs. Woldenberg, Sr.

The report was received here several days ago that unknown parties had fired into a band of sheep belonging to W. W. Brown on the range near Hampton Butte and killed about 400. As no other particulars have been received we can give nothing definite about the matter, in fact we do not know for certain that the camp was raided at all. It will be remembered that Mr. Brown was accused of informing on several ranchers in Crook county who had government land fenced and as a consequence they were ordered torn down. Expressions at that time and published reports since indicate that these parties resent Mr. Brown's action and possibly this sheep shooting is the out come of a desire for revenge. If such is so we hope the matter will be sifted down and the guilty parties made to pay for such injustice.

A. A. Phillips, who is the inventor of a self-heating branding iron, has just returned to his home in Denver, Col., after a trip through all the principal countries of Europe in the interests of his invention. Although his method of branding was introduced only a short time ago, it is now being widely adopted throughout the west. The device consists of a copper band on the end of a steel tube. The latter acts as a reservoir for gasoline, which is turned into gas and burned inside the branding metal, which is hereby kept hot constantly. The self-heating branding iron is now patented in fourteen countries.—Ex.
