The range is good at present, but there is much vacant land and being settled up quite rapidly, and the question of range may be limited at no distant date. The land laws are similar to the United States, except one can make proof on a homestead in three years. The Hudsons Bay Co. and railroads own much valuable land which sells on an average of \$5. per acre. The country is rolling, with no rocks—the high hills being farmed. The land is productive, but owing to the extreme cold only the hardy series can be raised. Mr. Witzel has not fully decided whether he will locate in that section or not.

One of the largest land and stock deals consummated in this county for several years has been made; Wm. Hanley buying the entire interests of A. W. Riley. The trade includes some 15,000 acres of land, commonly known as the Double O ranch, and several thousand cattle, together with the farming implements, horses and other ranch paraphernalia. We understand the deal was made some time ago but as yet the transfer has not been made, although the details have all been arranged and consideration satisfactory.
