The State Fair.

No time in the history of the Oregon state fair has there been such a good feeling among the agricultural classes towards the success of the fair as exists at the present time. Every section of the state seems to be taking an interest in the fair and promises to give it their hearty support.

Eastern Oregon for the first time has promised one or two county exhibits, consisting of agricultural products, while the southern portion of the state will also be represented by a comprehensive exhibit of its agricultural products.

Live stock from all over the state is being prepared for this year's fair.

There are reasons for this awakening of the people to the support of the fair. One is, the

New York (exclusive of Brooks)

management has worked hard and faithfully to make the fair as broad as the state itself, the of Manhattan within the next 20 transportation companies have years; while Philadelphia will come to their assistance and make receive \$180,000,000. Chicago very liberal rates on hauling ex-\$10,000,000 Brooklyn \$140,000,000. The people are beginning to realize now. As more than ten thousand that it is time to let the outside world know of the wonderful resources of our state, and believe me, the rate of increase suggests that the state fair is the place to meet the better class of homesick visitors. This will make the fair doubly valuable. It will give those who are looking for homes on the Pacific coast an opportunity to see in a body what our state can produce, and where it is produced, without traveling all over the country. It will be rendered the Lewis and Clark Exposition by the Hearst newspaper. A suggestion has been made by a former Oregonian, who is close to the aspirant for the presidency, that his chain of powerful papers take up the Coast exposition and advertise it for the benefit of the whole Coast. The suggestion is being considered by Mr. Hearst.

Investigation has been made to determine to what depth the roots of alfalfa will penetrate. An eight-year-old plant in a stiff-hard pan's subsoil was followed to a whatever heart takes up he carries depth of ten feet without the end through great success. Mr. Sweene believes the exposition needs more advertising in the East—Portland Telegram.

Governor Wants Time.

A Salem dispatch to the Oregonian says: Several weeks ago the matter of the contest between the Warner Valley Land Company and several settlers in that valley came up before the State Land Board for adjudication. The Warner Valley Land Company claims title to land through the state by virtue of purchase and deed under the swamp land act. The settlers claim the land by virtue of settlement under the homestead act. The settlers demand patents to the land from the Government, while the land company desires the Government to patent the land to date in order to make its deed valid, and it is understood that an effort is being made by misrepresentation to accomplish this end, which is made possible by the provisions of the act of Congress of March 12, 1860. The matter has been reported to the State Land Board and an investigation will be made. In the meantime the Governor today sent a dispatch to Hon. E. A. Hitchcock, Secretary of the Interior, the text of which follows:

"Approved list No. 70, swamp lands, Lakeview district, Oregon, received. Again I earnestly request that no patent issue until request therefore is made by me, pursuant to acts of Congress, September 28, 1850, extended to Oregon by act of March 12, 1860. No one has authority from me to represent the State of Oregon in requesting issuance of patents of the land or any of them embraced in said list, though I am just informed that some one pretends to represent the Government of Oregon for that purpose. The matter is being investigated by me, and, until satisfied as to the bona fides of the claim of the state to these lands, I will make no request for issuance of patent."

Studebaker Wagons, Hacks, Carriages, Buggies and Buckboards are arriving now and selling as fast as we can get them in. We have two car loads of these goods here and in training. The best stock of Wagons and Vehicles ever brought to Burns. Call and look at goods even if you do not desire to buy at the present time. Geer & Cummings.

A fresh assortment of candies just received at Horton's

The State Fair.

No time in the history of the

Oregon state fair has there been

such a good feeling among the

agricultural classes towards

the success of the fair as exists at

the present time. Every section

of the state seems to be taking

an interest in the fair and promises

to give it their hearty support.

Eastern Oregon for the first time

has promised one or two county

exhibits, consisting of agricultural

products, while the southern

portion of the state will also be

represented by a comprehensive

exhibit of its agricultural products.

Live stock from all over the state

is being prepared for this year's

fair.

There are reasons for this

awakening of the people to the

support of the fair. One is,

the New York (exclusive of Brooks)

has just received a large number of new exhibits, and the

people are beginning to realize how much there is to be learned

in the various departments of agriculture.

As more and more people come

to the fair, the exhibits will

increase in size and variety.

The fair is to be held in the

newly built fair grounds, and

will be a great success.

The fair is to be held in the

newly built fair grounds, and

will be a great success.
