Mr. Mattison is an employee on the Portland Journal. The many friends of Miss Schwartz join The Times-Herald in wishing a pleasant and prosperous life. Mr and Mrs Mattison are now on a honeymoon tour and will be at home in Portland next month.

We are in receipt of a letter from C. E. Keryon in which he states he will move from Boise to Ontario and take the position of assistant cashier of the First National Bank at that place. He did not invest any money in the Idaho city as was his intention and was therefore not tied there. He states that Boise is a beautiful place to reside but that he feels there are better places in which to invest and go into business. His many Harney county friends will be glad to learn of his returning nearer home at least. The officers of the financial institution which he goes into are to be congratulated upon securing such an accommodating and affable gentleman for the position.

Dr. Marsden recently received a letter from Prof. Charles Rakestraw, of the Indian school at Fort Bidwell in which was enclosed letters from several Indian children from this section to their relatives and friends. They express themselves as being highly pleased with the school and urge all the other children to attend. They were all well, contented and happy and each gave a description of their surroundings, their work, etc. Their impressions were all given through an interpreter. They extended an invitation to the Indians here to visit them next summer and asked for money to buy candy. Those who wrote are Jimmie Louey, son of Capt Louey, Frank Louey, a nephew of the same celebrity, Jimmy Farley, George Dick, son of Big Dick and Tibhai an orphan girl. Several Indians made up a collection with the assistance of Dr. Marsden, amounting to \$11.25 to be distributed among the children for candy money. It is certainly encouraging to find the little savages are taking kindly to the school work and possibly more of them will now be induced to take an interest in education. Prof. Rakestraw seems to be the right man in charge of this institution. With his energy and interest there is much hope in the betterment of the half clothed, ignorant Indian children.
