THE SUIT OF LAKE COUNTY

settlers against the Warner Valley Stock Company to regain possession of lands awarded to that corporation by the Department of the Interior will be watched with much interest, as the main point involved is in regard to what constitutes swamp land. The work of the settlers on these lands has undoubtedly made a radical change in their character, and has complicated the situation to such an extent that, no matter which of the contestants is victorious, the other will be for from satisfied. The lands in question were granted to the state in 1860, and in turn were sold by the state to the corporation which is now fighting the settlers for possession. The decision in the case now pending will affect a large amount of similarly held in different parts of the country.—Oregonian.

"us country" fellows knowing it. They can have the Injuns for a spell but Umatilla County needs the reservation land for wheat and corn-raising purposes.—Athena Press.

If Eastern Oregon could only believe that the Bonta electric road will be built from Baker City to Burns, as announced from Baker City, it would be a happy day for this country. If Baker City papers and Baker county boomers had not already built enough paper railroads to reach to the planet Mars, people would not view the announcement with suspicion. They only hope it is true, but as the Irish girl said, the news is "too good for the Dutch."—East Oregonian.

Oregon must shape up a code of irrigation laws which will be as modern as the plans of the government as set forth in the national irrigation act. There must be unanimity and harmony between the state and the government plans belong to the 20th century and they cannot harmonize with Oregon's 19th century code. Talk irrigation first, last and all the time in your coming conventions.
