The democrats have an exceptionally strong ticket in the field for county officers and one which The Times-Herald feels proud to champion. Every man has a good record upon which to stand and a good moral character that will appeal to the voters. Each have a reputation for honesty and their qualifications are unquestioned.

Sam Mothershead, for clerk is a young man who has seen public life in Harney county and who is widely known, although he has never before been before the people a candidate for office. His work as deputy sheriff in this county is well known and of such a character as to win him the respect and support of the voters regardless of party. Sam is thoroughly qualified for the position to which he aspires and his disposition fits him for the place.

A. K. Richardson, who has been placed on the ticket for the office of sheriff, is one of the most popular men in Harney county and against whom nothing can be said. He has never before been in politics and is particularly free from any stain upon his character in politics or as a private citizen. He is a man of courage and will fearlessly do his duty should the people place him in office. Lon, as his friends call him, is an active, energetic man who would conduct the office in the same manner as his private business and ever be ready to do the bidding of the people without delay in any emergency. Such an officer is desired.

J. M. Dalton, the well known business man of this city, who was nominated for the office of treasurer, is a proper custodian of the people's funds. Mr. Dalton is a man of ability and trust and possesses all the qualities necessary to make a good careful officer. His past business career is an evidence of his worth and confidence. Jim is not a stranger to the voters and is a vote getter wherever you place him.

Byron Terrill has lived in Harney county for 20 years or more and is known to almost every resident of the county. His wide acquaintance with the men and property interests make him a most desirable man for the position of assessor. The voters will certainly make no mistake in placing Byron in this responsible office as his qualifications are of the best.

The past official record of J. C. Bartlett as school superintendent

gives him first place in the hearts of the people of this county and makes his election to succeed himself almost a settled fact. His management of educational affairs have been most satisfactory and he has earned a second term by his untiring efforts to better our schools. This valuable and important service should be given much consideration and there is no better way of advancing our educational affairs than by retaining this excellent young educator in the position he has held for the past four years.

For the important office of county commissioner The Times-Herald does not hesitate to recommend the democratic nominee—W. D. Baker, of Drewsey. His business judgment and familiarity with the duties of the position makes him a strong candidate and a safe man for the position. He is thoroughly alive to the interests of the county, is progressive and energetic, yet conservative and careful in his business affairs.

Dr. H. Volp, the nominee for coroner, is a well known practitioner in this city where has been located for several years. The Doctor is well qualified for the position and thoroughly understands the duties of the office.

If the cow ordinance is not going to be enforced and allowed to be a dead letter the people should know it and govern themselves accordingly. As it is much inconvenience is caused to people owning stock as well as those who don't.

Republican District Nominees.

A phone message from Portland announces that Geo. Davis of Canyon City was nominated by the republicans for circuit Judge. J. W. McCullough, of Vale for district attorney to succeed Wm. Miller, and J. L. Sitz for joint-representative for Harney and Malheur counties.

Up to the time of going to press we had not learned in regard to the state ticket.

Williamson had no opposition for congressman to succeed himself in this district and Hon. Binger Hermann will be returned from the first district provided the democrats don't beat him.

Will Kill Diseased Horses

Six hundred horses afflicted with contagious diseases, will be killed in Morrow county in pursuance of an order made by the Domestic Animal Commission. The horses are owned by Indians living on the Umatilla reservation and are afflicted with mange.

The state board has repeatedly made efforts in the last two years to induce the government authorities in Washington or at the reservation to take steps to stamp out a disease that threatens to spread all over the state. All efforts have proved fruitless, the board has at last determined to take radical action and the state veterinarian has been ordered to kill the diseased animals and bury them. The horses are declared to be valueless because of their diseased condition.

Good For Children.

One Minute Cough Cure is pleasant to take and it is good alike for young and old. Sold by all druggists.

SUFFICIENT WATER SUPPLY ASSURED

People Must Now Take up Matter and Give Government Clear Sailing.

J. H. Lewis of the U. S. Geological service, who has charge of the water gauges in this section, spent several days here this week in company with the local gauger, M. L. Lewis at the Silvis station and also visiting the other stations. The gentleman left this morning for Silver Creek.

It is now no longer a question of water supply as the vast amount now coming out of the mountains is convincing evidence that the supply is sufficient to irrigate every foot of level land in this valley and enough to spare. The object keeping an accurate record of the water now is to ascertain the height of dam required to hold the flood waters and to make calculations on the size of canals necessary to carry it to the various places for irrigation purposes.

It is now up to the people of this valley to make government irrigation a go. They must organize and arrange with all who have holdings below the proposed site susceptible to irrigation. The government has the money appropriated and is certainly ready to take up the work here provided no private water rights stand in the way that may complicate matters after actual work is begun.

When the policy of the government is explained we anticipate no trouble in this respect as it will in no wise interfere with present water rights and will give each the amount of water necessary provided they co-operate. They have the choice of taking it pro-rated or the amount they have recorded and at such times as will be most beneficial to the growing crops. Now our people have to take the flood waters in April and May and do without in June when most needed.

Chief Newell of the reclamation service has signified his intention of sending a consulting engineer here this spring for the purpose of conferring with the people and assisting in the organization of a local association of this kind and until his arrival nothing can be done in that respect, except to discuss the matter among local people in order to have them more thoroughly understand the situation, thereby causing less delay when active work is begun.

The Times-Herald hopes the people of Harney county will realize the importance of getting together on this matter as that will certainly mean government aid in irrigation works, a railroad and the settlement and general development of this vast section.

Mose Levy now has charge of the Red Front Livery and Feed Barn where he will be pleased to look after your wants in his line. Mose is a thorough competent livery man and stock placed in his care are certain to receive the best of treatment. Livery turnouts on short notice. Prices reasonable.
