Wholesale meat dealers in eastern cities lately added a quarter of a cent a pound to the price of beef; the retailers presumably more. The pretext for doing this was that the livestock on hand is insufficient to meet the increasing demand.

People acquainted with the situation, especially western people, know that this is a false pretext. Complaint comes from all the range states that the ranges are overstocked, that cattle raising is less profitable than it was a year or two ago, and that the price of beef cattle on the hoof has been steadily falling for the past two years. This is notoriously the case in Oregon; Hoof cattle bring \$1 a hundred less in eastern markets than they did in 1901.

Secretary Martin of the National Livestock association states that this decline in price has caused stockmen, within less than two years, a loss of \$750,000,000.

This loss is not due to the operation of the law of supply and demand, for the demand has increased, and the price of dressed beef has risen. Stockmen are getting less for their cattle; consumers are paying more for beef. Beef is high, but not scarce.

This condition affairs is due entirely to the action of the meat packers' combine, or trust, that arbitrarily fixes the price both of cattle on the hoof and of beef in the shop. This trust takes toll with both greedy hands—\$750,000,000 in two years from the

cattlemen; how many hundreds of millions from meat consumers? And yet Attorney-General Knox cannot find evidence that is a beef trust, nor did congress think it necessary to make any move in the matter. What apatient—or is it foolish—people we are!—Portland Journal.

Hon. George Chandler has given out an opinion on the prospects for this season, through the columns of the Baker City Democrat in which he says some hopeful things. As the comments apply here as well as at Baker, the substance of the talk is reproduced. The main statement made by Mr. Chandler is that this season now coming on promises the richest returns to stockmen and farmers of any in ten years. The damp weather has made the grass grow luxuriantly and it is safe to say there will be the biggest crop of hay and grain raised in many years. Cattle and sheep came through the winter in fairly good shape and the early pasture and promise of a long range means a large production of stock, which cannot fail to bring as high a price as the market affords. Mr. Chandler also stated that there will be a large crop of wool this year of a high grade and that he expects to see sheepmen reap a rich profit.

"I've come to kill a printer," said the little man. "Any printer in particular?" asked the foreman. "Oh, anyone will do. I prefer a small one, but I've got to make some show at fight or leave home, since the paper has called my wife's tea party a 'swill affair.'"—Ex.

A lawyer in a court room may call a man a liar, a scoundrel, villain or thief, and no one makes a complaint when court adjourns. If a newspaper prints such reflections on a man's character there is a liable suit or a dead editor. This is owing to the fact that people believe what an editor says; what a lawyer says cuts no figure.—Huntington Herald.
