THIS STATE MUST MOVE

CELEJO RIGHT OF WAY SHOULD BE GIVEN CONGRESS EARLY.

Congressman Jones says improvement in Columbia Will Likely be Favorably Considered by Committee.

The improvements in the Columbia at The Dalles, providing a system of locks that would permit vessels to pass through the Celilo rapids, can be put under contract at the next session of Congress, provided the right of way is, provided and tendered the Government by the time Congress convenes.

It is estimated by Mr. Jones that the next river and harbor bill will carry appropriations aggregating close to \$60,000,000. This total will not only provide for the work to be done during the ensuing two years, but will also include many projects, similar to that of Celilo, which involve work which cannot be ended within less than three or four years.

The Stomach is the Man.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach.
