WAR! WAR! WAR War Has Been Declared Not with Russia or Japan, but WAR ON PRICES!

It has been our policy and endeavor for the past eight years to deal fair with our competitor as well as our customer-to maintain prices at a reasonable living profit-to do business on the "live and let live plan"-to give our customers the very best value for the money, and do not now nor have we believed in cutting prices below a legitimate basis, but since cutting is the fashion, we propose to lead. Our expenses are as light as any other firm in Harney county. We can buy just as cheap as any other firm in Harney county. Therefore we can not nor will not be undersold by any one. We have tried the premium plan and found it unsatisfactory. We believe it better to give our customers full value for the money at the time the purchase is made. It is the man with the hard, cold cash that we are after. We give here some prices at which we are going to sell for g and for cash only. To those whose accounts are satisfactory we will extend credit at regular prices, as us We are here for business, and if prices are an inducement we will have it,

Flour \$1.65 or two sacks for\$3 25	Coal oil, Pearl, per case
