CITY ELECTION.

The municipal election is not far distant and the people should be casting about for suitable material to fill the vacancies that occur the first of next month. The Times-Herald urges the selection of some of the heavy taxpayers to look after the city government and if they could be chosen so as to prevent the frequent strife that characterizes such elections it would be better. The good of our city should be uppermost in selecting officers. Men who are conscientious and careful in their own business transactions generally make good officers. Such men are the ones the people are looking for. Discuss the city election and pick candidates.
