

OREGONIAN ON THE RIGHT TRACK.

Great Stock Industry of Eastern Oregon Demands Attention.

The following appeared in Monday's Oregonian:

Probably no other one thing would prove of such benefit to the livestock industry of Oregon as the establishment of a large packing plant of Portland.

Herbert Boylen received over 4000 head of lambs in this place Wednesday which had been driven from Monument, Grant County, a distance of 140 miles, and looked none the worse for the long trip.

Note this also—2200 head of ewes sold at \$4 a head. A good sale of range sheep, reported by the Monument Enterprise: John Jonas was down from his stock ranch Wednesday on business.

Last week it was mentioned that 10,000 head of Oregon sheep had been sent to Idaho, to be fattened there for the Chicago market on Canada field peas.

For the finest quality of English Surprise Seed Oats, Clear from foul seed and wild oats, also clean seed rye at 14 cents per pound, call on Chas. H. Davis, Harney City Oregon.

J. C. Doon came over from Warner last Thursday with a bunch of beef cattle that he put out on pasture—Lakeview Herald.

Why should not Oregon grown field peas and alfalfa hay fatten Oregon raised sheep, and Oregon sheppmen and farmers pocket the difference between present and next Spring prices?

The East Oregonian notes the following: "J. Angell, a cattleman of the Izee country, in southern Grant County, is in town, having come in with a band of 300 fat cattle which he sold here. On being weighed in the stockyards here the beef were found to weigh an average of 1218 pounds thus netting the cattlemen a good round sum.

To bring the cattle here from Mr Angell's ranch near Izee required 15 days, for it is over 150 miles. However, the band was brought through without mishap and delivered here in good shape.

Seven thousand head of beef cattle, purchased in nearly every Eastern Oregon county, will be fed by R N Stanfield, on his Butter Creek alfalfa ranches this season. Delivery of cattle has been made at several interior points and a large porportion of the 7000 head is now at Butter Creek, ready for fattening. The prices paid have averaged \$2.75 for steers and \$2 for cows.

W J Wattenburger was over from Butter Creek the first of the week looking after some cattle for feeders. He informed The Times that he bought 100 head from Will Matlock, who is now in the John Day country buying. The cattle will be delivered here the latter part of this or the first of next week. The ruling price of feeders is \$2.75.

Why reprint these items? First to continue attention to the price. Two remedies will suggest themselves. The first is that Butter Creek is, doubtless, an excellent section for winter feeding. As it has not many competitors the buyers there hold the mastery of the situation. But if there were a dozen Butter Creeks, and the competition for cattle to feed was therefore lively, would not prices rise? And there is on the irrigated lands surplus feed, to be put to such profitable account. It will be many years before a market falls for alfalfa hay, vetches and the rest of the products of irrigated ground. Did we not see at the stock show the two fat grade steers from the Idaho Experiment Station, and the notes of their

ages, and the daily growth in weight every day since they opened their eyes in this wide world? Just good ordinary care and food—result, cattle fit for market and for sale at top prices a full year ahead of our average range steers.

Which is best? To have forty three and four-year-olds, half fat range fed, and sell them, or to have twenty-two-year-olds ready for market, fattened on your own home grown feed, and bringing nearly or quite double the price per head? How much more quickly is the money turned over, and where will the most money be in five years' time?

The second remedy for the \$2.75 price is to have the market here in Oregon, instead of Chicago, in the stockyards owned and managed by the Beef Trust and its myrmidons. Packing house in Portland? Of course.

To repeat the great stock show of 1905 will be enough good all round. To the business men of Oregon it may be suggested that to raise the quality, the value, the amount of the stock on our farms and ranges is to add immensely to the profits and the capital of the great community of farmers, stockmen and breeders. And in their growing prosperity is found the solid growth of all commercial interests therein involved.

Some idea of the magnitude of the cattle trade in Eastern Oregon is given in these figures: The number to be driven to Ontario is 2050, to Pendleton 700 head, and Heppner 350.

Neuralgia And Other Pain.

All pain in any disease is nerve pain, the result of a turbulent condition of the nerves. The stabbing, lacerating, darting, burning, agonizing pain that comes from the prominent nerve branches, or sensory nerves, is neuralgia, and is the "big brother" of all the other pains.

Dr. Miles' Anti-Pain Pills rarely ever fail to relieve these pains by soothing these larger nerves, and restoring their tranquility.

Dr. Miles' Anti-Pain Pills leave no bad after-effects, and are a reliable remedy for every kind of pain, such as headache, backache, stomachache, sciatica, rheumatism and neuralgia. They also relieve Dizziness, Sleeplessness, Nervousness, Car-Sickness, and Distress after eating.

"For many years I have been a constant sufferer from neuralgia and headache, and have never been able to obtain any relief from various headache powders and capsules, until I tried Dr. Miles' Anti-Pain Pills. They always cure my headache in ten minutes time." FRED B. SWINGLEY, Cashier 1st Nat. Bank, Atkinson, Neb.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 cents, 50 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

Full of Tragic Meaning

are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At H. M. Horton's druggist; guaranteed; 50c and \$1.00. Trial bottle free.

A WONDERFUL INVENTION.

It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the more popular devices are those designed to benefit people and meet popular conditions, and one of the most interesting of these that has ever been invented is that Dr. White Electric Comb, patented Jan. 1, '99. These wonderful Combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days time. Thousands of these electric combs have been sold in the various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich selling these combs. They positively sell on sight. Send for sample. Men's size 35c, ladies' 50c—(half price while we are introducing them.) The Dr. White The Dr. White Electric Comb Co., Decatur, Ill.

For Sale—Fall and Winter apples 75 cents a box, best varieties. Horse pasture free. Fruit ready about Sept. 20 at the Belshaw ranch.—Belshaw & Bentley Bros.

Religious Services.
