Arthur Horton of the Electric Light & Power Co., has returned from a business trip to outside points and many were under the impression that the plant would be started up immediately but they are doomed to disappointment as Mr Horton informs The Times-Herald that it will be a month yet before the lights are turned on. **THE CANTATA, "ESTHER"**  
Local talent will present an amateur performance, or rather rendition of "Esther" in this city some time next month, the exact date is not fixed but will be given definitely later.  
For some time the Presbyterian church has had in view the building of a Sunday school room in addition to the present building. In fact a good portion of the necessary funds are already available for this purpose, but the trustees desire to have sufficient to carry the work to completion before it is undertaken. "Esther" will be presented as a benefit for the worthy cause and no doubt enough will be realized to accomplish this and feature the much needed improvement as soon as weather conditions will permit.  
Burns is particularly fortunate in having many exceptionally good vocalists that will take part in this rendition which will certainly be appreciated by music lovers. Although "Esther" was staged here several years ago, it is none the less popular and can now be produced under much more favorable circumstances.  
Rehearsals will begin immediately and music lovers should not fail to witness it.
