JULIAN BYRD ----- Manager

Later news regarding the new railroad projected across the state are to the effect that many of the leading citizens of Portland and some of the commercial organizations of that city had known of it for some time but had been sworn to secrecy. It has every indication of being a very live proposition and has sufficient backing to carry it to consummation regardless of any opposition that might be brought to bear. The people backing it are high in the financial world and it is not child's play with them, but strict business. As it must be pushed to completion in order to be a paying proposition it is not likely much time will be wasted in carrying out the plans. Under such circumstances Harney county may expect early connections with the outside world with good prospects for two roads instead of one for the Harriman people will not quit since they have started, especially when the field is invaded by a rival road.

The Times-Herald is pleased to see such men as Grant Thompson come out for the responsible offices of Harney county. Viewing his candidacy from a nonpolitical standpoint it is particularly gratifying. Mr Thompson is one of the substantial, conscientious citizens of this county and has entered the race for county judge only after serious consideration and at the earnest solicitation of his party friends. Such men add dignity to a campaign and make the general public feel the responsibility resting upon them in the selection of public servants. Mr. Thompson fully realizes the importance of the position to which he aspires and will make an honest campaign.

Walter Gray, one of the pioneer boys of this section will ask the republican voters to consider his name at the primaries as an aspirant for the office of sheriff. He has always been one of the determined young men of this frontier section who has ever been faithful to any trust and should he be the nominee of his party would make an excellent race for the place. His announcement is in this issue of the great religious.

The announcement of C. W. Drinkwater as a candidate for the office of county clerk on the republican ticket appears in this issue. Mr Drinkwater is one of the popular young men of this county who has brought himself into prominence by his strict attention to business affairs and pleasant personage. He is well qualified for the position to which he aspires.

Assistant Postmaster Woldenberg informs us that the Burns-Canyon stage contract has been awarded to Frank Metschan on a seven-times a week schedule to go into effect July 1. J. E. Harper received the contract on the Burns Diamond line and Henry Landreth the Burns-Venator line.

HARNEY LOCALS.

Jas Gilbert was in town Wednesday morning.

The school board closed the schools again last week on account of scarlet fever in the families of A. K. Richardson and Artie Pool. Subsequently they arranged with L M Hamilton to conduct the studies of the sixth and eighth grades by correspondence and he issued his first list of questions Tuesday. This will be quite beneficial to the pupils of these grades and it is proposed to reopen the schools for another month at least as soon as the quarantine restrictions are removed. The patients in both families are in fair way for recovery and no other cases have developed so it is hoped the dread disease is under control at this place.

Earnest sympathy has been expressed by the whole community with Mr and Mrs Artie Pool in the loss of their little daughter, Hazel, and everything has been done that could be under the circumstances.

to assure them of the interest all have felt in their bereavement. Her winsome ways are brought a smile. Her blithesome cheer did hearts beguile.

In Heaven bright and where all is joy We with her many songs employ.

The Harney pupils of the eighth grade to the number nine were in attendance at the School building Wednesday January 31st to undergo the ordeal of examination for promotion. It was opened and conducted by M E Rigby, county superintendent continuing until Friday afternoon. Being called to his home at Lawen Prof Rigby left the oversight of its completion under the direction of Director Thos. Bain and Prof L M Hamilton and returned to Lawen Friday morning accompanied by Theo Coleman who returned to Harney that evening well pleased with his view of snow and sage brush as well as the hospitality which he enjoyed.

The directors of the Harney Board of Trade held a meeting in the office of the Harney hotel Thursday evening Feb. 1 and a very harmonious feeling prevailed. The president Jasper Davis, reported on the progress of the work under his direction the past month and especially upon the favorable outlook for the prospects of the work under his direction the past month and especially upon the favorable outlook for the prospects of the erection of a grist mill at Harney the coming spring. A vote of thanks was ordered to be sent to A. L. Craig, Gen. Pass, agent of the O. R. & N. Co for the donation of maps of the Pacific Northwest and the U. P. & Southern Pacific systems which had been received for office use.

A letter from Wm Hanley of the Wm Hanley company was reading his approval of the objects of the Board of Trade and responding to the list of questions in regard to the resources and development of Harney Valley. Other responses from M Fenwick, W. L. Neil, Robt. Drinkwater, Price Withers were noted and since another has been received from Adam George giving some of their views and experiences. The secretary was instructed to complete arrangements for affiliation by membership of this association with The Oregon Development League at Portland.

The Sumpter Valley Railway has advised this Board of their appreciation of inquiries relative to its extension, freight rates etc, but having had no meeting of their stock holders as yet to determine their plans of work for 1906 they could not advise us how much extension would be made this year but their charter provides for a southern terminus at Burns. Of course as the route down Rattle snake and via Harney City being the most feasible for construction purposes we have no doubt they will see the advantage of skirting the foot hills to reach Burns. Other railroad news received has been quite interesting and more developments will be communicated as fast as practicable.

More, anon.

"Say, are you the fellow that writes to the paper?" asked Mr Marks. "It is not always good policy to admit such thing until one finds out just how the other fellow feels, so we avoided the direct question and asked why he wanted to know. "Well, somebody warned me through The Times-Herald to keep everything under lock because that crowd was coming." They did come—and took the place by storm. You see, I had just got one boot off and was tugging at the other when I heard the cow bells jingling; of course I thought something was after the cow, but upon opening the door I was greeted by that old song "Won't go Home 'Till Morning." It was too late to profit from the warning, for they were "Johnnie on the Spot" and simply took possession. First thing I knew they were gathered round some tables with some card games and I was kept in a nervous strain by frequent and startling exclamations like "Flinch" "Bunc'd" "Trade, Trade!" "You cheated!" Who were they did you say? Let's see there was the Misses Georgia Holliday, M A and Edith Harrison, Hettie Bartlett, Mr and Mrs Couch, Mr and Mrs W D Baker, Dr Gerdes, Messrs J E Baker,

Well, I haven't looked all over the premises yet, but Mrs Marks had a lot of good things cooked up for Sunday dinner that she placed on the dining table—that all disappeared. Well, after all, I enjoyed it and Mrs Marks made me promise to tell them to come again."
