The report of the condition of the First National Bank of Burns which appears in this issue shows a most healthy condition of affairs at this time of the year and is decidedly the best showing of the institution in its history on a similar call. The deposits show up a total of $184,814.82, with $87,656.70 cash on hand. Considering the long, hard winter this speaks well for Harney county. The local bank, like the newspaper, has much to do with the impression strangers get of a town and they are entitled to consideration in this light. Home institutions demand our loyal support as it always reflects credit to your town and community.

The Times-Herald has been watching the political situation quite closely during the past few weeks. It dosn't espouse the candidacy of any particular individuals, but is interested in placing good, clean men in office. The fight for the senatorial nomination on the republican ticket is one of the features of the campaign that is rather more interesting than usual. From indications it points to E. L. Smith, the Hood River man, as the logical man, as he appears to be the only candidate that is clear of charges by some other faction of his party. Senator Gearin has no opposition for the democratic nomination, therefore has the entire party behind him.

Robert van Gilse, the democratic candidate for representative for Harney and Malheur counties, did not get his petition filed in time to have his name placed upon the ballot for the primary election next Friday. However, democrats are urged to vote for him in the blank space left for this purpose. This can be done by writing his name in the space and making a cross (x) following it. The Times-Herald is instructed that it is important that this cross should follow the name in order that it be counted. Robert van Gilse is highly spoken of by his acquaintances. He is a farmer and lives in Malheur county near Ontario.

In our last issue The Times-Herald stated that the railroad surveyors were unable to secure the desired one per cent grade over Sage Hen. We learn from C. J. Millar, the engineer in charge, that even before the paper was issued last week, his boys had found a good pass and are now working on west in a most satisfactory manner.

Next week will bring the primary election campaign to a close and then it will be a scrap between the two parties instead of strife among the members of each camp. Place your ballot for the best men on both tickets and we will have good officers regardless of which party wins.

A candidate's "platform" has very little weight when the voters know the man. Not but good men have announced with platforms who are sincere, while others don't fit their platforms by a long shot. Better know your man than a dozen platforms.

COMMUNICATED.

To the Republican Electors of Harney County Oregon:

On account of earnest solicitations from a large number of republicans throughout the county, I was prevailed upon to enter the race for nomination to the office of County Judge of this county, at the primaries held on April 20 1906.

Owing to the exceptional condition of the weather this spring which makes it imperative that I give my whole attention to my personal interests in looking after my stock it will be impossible for me to make any canvass of the county in my own behalf, as is the usual custom. I appreciate the effort that my republican friends are making for me, and take this opportunty of saying that if I am successful in securing the nomination for the office of County Judge of this county, I will make all honorable efforts within my power to be elected, and if elected I will discharge the duties of such office conscientiously and impartially and to the very best of my judgment and understanding.

Respectfully,
GRANT THOMPSON.

One of the most perfect and handsome horses ever brought to Harney County is the standard bred stallion, Fillmore Chief, the property of D. F. Hawley of this city. This horse is certainly one of the best bred horses in the United States. He is a beautiful bay, of good form, fine disposition and altogether a grand individual. He not only possesses speed, but also every requisite to make him a favorite among breeders and lovers of horses. The Times-Herald is pleased to make particular mention of such noble animals, as it is interested in the improvement of the class of horses in Harney county and by encouraging such horses as Fillmore Chief much may be accomplished along this line.

HARNEY DOINGS.

Mr. D. R. Coleman, a son of Theo. Coleman, arrived from Yellow Pine Ala. last Friday having been just a week on the way.

Rev. A. J. Irwin came over from Burns Saturday and preached that night and Sunday morning and evening returning home Monday morning.

There was a good session of the Sunday School at 2 o'clock under supervision of Assistant Supt. L. M. Hamilton with an attendance of 40.

R. T. Hughet candidate for sheriff came over from Burns Monday to shake hands with the Harney voters, and although he got through a barbed wire fence he concluded Lon Richardson had that field pretty well covered.

S. S. Williams, manager of the O-B stage line was in town Monday and says this has been the hardest winter in his experience. The people of Harney realize he has been up against it but feel that he has certainly done his duty in getting the mails through even though delayed at times.

The Board of Trade received another letter this week from Gov. Chamberlain in which he says: "The Board on March 2nd 1906 forwarded to Mr. Burke a report of the State Engineer in which it was pointed out that good results in all probability cannot be secured with less than 1.5 acre feet of water per season in Harney Valley. This is far in excess of what Mr. Burke proposed to supply and less than experience showed necessary in similar localities. You have a splendid county and the time will come when storage reservoirs will be constructed for saving the waste waters. This is difficult to be done under the present law. An effort ought to be made at the next legislature to secure relief in this respect. I enclose under seperate cover a pamphlet on the subject of water rights. The statutory laws and conditions of California are almost identical with those in Oregon. The need of legislation will be apparent by a careful study of the pamphlet. Development in all sections of the state is retarded on this account and the labors of the state officers in irrigation matters made especially difficult."

Horsemen should see the pedigree of Fillmore Chief the trotting stallion.
