Al Weatherly came over from Drewsey the first of the week bringing over the prisoner. Bud Metcalf who was wanted in Grant County on a charge of stealing sheep.

George and Bert Porter and W. L. Blott were up from their ranches a few days this week. They report everything lively in their respective neighborhoods and expect to raise big crops this season.

If that storm that visited Portland last Monday had been in Harney county every one time "Webb" would have declared this section the "limit" and told of the mildness of Portland weather. As it is we are just that much ahead of Western Oregon.

It is an ill wind that blows no body good. With newspaper reports of a fearful loss of stock throughout Idaho, Wyoming, Montana and other such states the Harney county stockmen see a good season ahead of him. We are not losing any stock and have sufficient feed to take everything through the winter in good shape.

This is ground hog day and if his majesty decided the question before noon all is well for the sun failed to shine up to that time, but since it has come out quite bright accompanied by another chinook wind. We have decided that we have no faith in the ground hog proposition anyway and will even like Rev. Hicks forecasts in preference.

Geo. Smith has written from Andrews under date of Jan. 27, to Dr. Marsden stating that Dr. D. B. Cate was found dead in his bed on January 23 at that place. Deceased was well known here where he practiced dentistry for a number of years. He was a good workman and a perfect gentleman but was addicted to strong drink. While it is thought he died from heart failure it was certainly brought on by liquor. He had complained of pains in the region of his heart the afternoon before but otherwise appeared to be in his usual health. Geo. Turabow had gone to his room the second time about noon when he discovered the man was dead, the first time he thought he was merely asleep. Dr. Cate had many friends here who regret his untimely death.

A. Schenk, our local merchant tailor, has purchased the W. J. Coleman residence where he has been living the past few months, the deed having been signed by Will McKinney, the former owner, this week. Mr. Schenk has been here less than a year, yet he has gained the confidence of the people and is doing a fine business. His purchasing a home indicates his confidence in the future of our little city and that he is here to stay.

The directors of the First National Bank of Burns held their annual meeting last Saturday and found the condition of the institution most satisfactory. The only change in the officers was to elect C. A. Haines vice president in the place of N. U. Carpenter. They increased their surplus fund to \$10,000. This institution has made rapid gains during the past year and those connected with it were pleased to see the deposits above the quarter million mark. The government call for a report happened to be on the same day as the annual meeting and this report showing the condition on that date will be found elsewhere in this issue.

Invitations are being sent out for the twelfth annual ball given by Council No. 8888 P. P. P. It will not be a public affair this year, but restricted to invited guests.

The mask ball last night was largely attended and a decided success in every particular. There were a large number of maskers present and some well represented characters.

C. A. Haines and family were up from Narrows a few days during the week the guests of relatives. Mr. Haines was here to attend the annual meeting of the stockholders of the First National Bank which was held Saturday.

The electric lights were again put out of business Monday night. It was thought at first the weight of the snow on the wires had caused the trouble, but upon closer inspection it was found the armature was burned out. This is the third or fourth that has gone back on them in the past year or so. We understand it will take some time to get the necessary repairs made.

L. Woldenberg spent yesterday in this city looking after business in connection with the Blue Mt. Rapid Transit Co. He states his family is comfortably domiciled in Baker City, but he is leading a strenuous life trying to get our mail through on time and therefore didn't get much time at home. He informs us Frank Metcalf is still in Portland where he accompanied his wife for the benefit of her health.

The Times-Herald notes with satisfaction that outside representatives have failed to take an order from local merchants for hams, bacon and lard. We are keeping our money at home for such products as also flour. Now if some enterprising people would look after the dairy product we would be better off still. It's almost impossible to get good butter and the stores cannot supply the demand for creamery butter that is shipped in from the outside.

R. H. Brown made a hurried trip over from Diamond last Monday to consult a physician. He suffered a stroke of facial paralysis on Saturday morning and was considerably concerned. Dr. Marsden has the case in charge and hopes it will prove only temporary. He is not suffering, but it is very disagreeable. Mr. Brown left for home again Wednesday.

Benjamin F. Sliffe, who for some time has resided in Fox valley, took his departure last Saturday for Idaho, with view to locating in the locality where the government reclamation is located. The withdrawal of all land surrounding Fox valley, and the likelihood that such will be added to the permanent reserve, will in his opinion, render Grant county unattractive to the homesteader, on account of being unable to secure grazing permits for stock. For this reason, Mr. Sliffe will look over Idaho with view of locating there—Blue Mountain Eagle.
