

Local News.

Bert Bower was in the city Tuesday. Plenty of potatoes at the City Meat Market. Butterick Patterns at Lunenburg and Dalton's. Go to J. C. Welcome & Son for carriage warmers. C. R. Peterson was among our business visitors this week. We do Banking by Mail, the Harney County Bank, Burns, Ore. F. M. Tipton is in the city from his home in the Crane creek section. Dr. W. C. Brown, Dentist, Office in the new stone building north of the Post Office. The hard winter prophets had better take a back seat unless they have something very unusual in reserve. Stockmen on the desert report feed very plentiful and the season being one of the best ever experienced. Miss Clayte Burrow entertained a number of her young friends last night in honor of Miss Pearl Mahon. Harney County Bank of Burns, Oregon, records its patrons, Courteous Treatment, Modern Methods and Perfect Responsibility. Lee Caldwell has again opened the Windsor bar to the public and invites his old time patrons and friends to call. Draft beer 5 cents. C. T. Cary has been sojourning in our city the past week. He came up through the rain storm and is waiting for the roads to settle before he starts home again. Commissioner Best and Leo Foster came over from Silver Lake yesterday. They state the roads are quite muddy, but not as bad as might be expected. A great reduction on a large variety of goods, until the first of March. Call at Mrs. Wilson's and see samples. I expect my Spring samples and styles about March 1. Bailey Hayes and Loyd Johnson were up from Lawen last Saturday returning home Sunday. They were in good company while here and the manager of this great religious, can vouch for their good behavior. This beautiful spring weather may have a bad effect on fruit if our people are not careful to mulch their trees and keep them back. We notice the buds are swelling in some shrubs and unless checked it will prove disastrous. C. H. Voegtly left Thursday for a business trip to Portland and other points. He may go to Salem to investigate the delay in organizing the third house. He expected to have Sam Mothershead to assist in this important work but will be disappointed for a card from Sam states he has gone to Seattle. Jasper Davis and wife were callers at this office Wednesday afternoon. They were over from Harney on a visit to Mrs. Hastie and called at this office to get some more advertising matter printed to boost the Harney County. They were accompanied upon their return by Robt. Drinkwater and wife. W. D. Arnett informs us that the Potter swamp grade has been almost ruined by the recent freshet and that it is now almost impossible to get through with a rig. This is but a repetition of almost every spring season on that particular piece of road and would indicate that a little practical road building is in order.

At the home of Mr. B. L. Brisco last Sunday A. A. Dickenson and Mrs. B. Rev. A. J. Irwin performed a ceremony. Mr. Dickenson of our well known saw and the bride is a recent from Oklahoma. The ceremony in extending congratulations. We mean delayed good news to those interested in the local fair that a bill creating a fair district alone appropriation of \$750 has been passed without a dissent. If it should successfully pass, the bill will be made much heretofore. News-Herald is informed Cronin, who has long been in charge of the Agency of the P. L. S. Co., has been appointed general manager of the company in Eastern Oregon. Gilcrest will soon be with his family to Oakland. Bart is certainly to be congratulated upon his promotion and the recognition of his confidence of his

Baled hay at the City Meat Market.
We invite out of town accounts Harney County Bank, Burns, Ore.
Robt. Irving has been visiting his family in this city the past week.
One of the most enjoyable dancing parties of the season was given at Locher's hall last night. It was largely attended.
Estray—One black mare branded A6—connected on left shoulder. \$10 reward for her delivery to Fred Haines, Harney, Ore.
The rains of the first of the present week caused quite a flood of the lower portions of this valley and have made the roads almost beyond navigation. Stages have been late all this week and when they did come have brought but very little mail. It seems we have been more fortunate than outside points where railroads have been snowed in and roadbeds have washed out. Blizzards were common in many sections and the loss of stock has been heavy.
Judge C. W. Parrish came over from Iree Sunday, expecting to spend a few days in town with his daughter, Mrs. V. G. Cozad. He brought with him a pet coon, of the tree variety, which has something of a history. The little fellow was an inhabitant of San Francisco at the time of the earthquake, and narrowly averted sudden departure to the realm of the happy hunting grounds of the coon. A citizen of Burns happened to be on the streets soon after his rescue and saw him being "toted" along by his small owner. And the man from Burns, "Scotty" of happy appellation, offered a dollar for the coon and at once was put into possession of it. He brought it to Burns and sold it to Mr. Parrish, whose fondness for nature's pets has won renown for Harney county. The little animal is full of tricks and brimming over with fun. His cute antics have created no end of merriment in town this week.—Grant County News.

Some ten months ago the firm of Geer & Cummins, large hardware dealers in this city, made an assignment of their stock for the benefit of their creditors. The liabilities did not exceed one-half the assets, however, and the move was not compulsory particularly, but considered best.
Every obligation of the firm has been cancelled and today the firm has again resumed the business with a most complete stock of goods. It had been the policy of the assignee to keep the stock up during the entire time, so that the business has not materially suffered. The indebtedness of the firm was largely paid off by collections, the old firm having been quite lenient with its customers and having many accounts for collection.
TO SINK ARTESIAN WELLS.
M. R. Smith is making preparations to sink deep wells for artesian water in this valley and the proper machinery will be brought in as soon as spring opens. He is ordering an equipment with a sufficient capacity to sink to any depth that would be practicable for an artesian flow and it will not be long until the people here know

exactly what can be accomplished in this manner of irrigation. We have the very best indications that this is an artesian basin, the only question having been the depth to which it would be necessary to go to get it. Mr. Smith will meet with very substantial encouragement in this enterprise and it will no doubt be a success and a great boon to this section.
