**HARNEY WILL ALSO TOOT.**

Harney, Feb. 11.—Julian Byrd, (Editor of the Great Religious Weekly) Allow me to congratulate you and your people on the success you have in getting the items of interest before your people and the interest they take in pushing things to a finish.

I wish to say that our people of Harney City are also awakening to the realization that the time is now here to get up and be a doing in order to keep pace with the rest of the state if we secure our share of the immigration. We know if we get anything we must work for it.

You don't have to knock a man down and take his money, all you have to do is to show him that you want a little to advertise Harney County and out comes the cash.

Hoping that all will push together regardless of sectional interest for the Great Harney Country and Greater Oregon.

Yours for Success,  
JASPER DAVIS.

**RAILROAD WORK CONTINUES.**

Activity among the railroad surveying crews continues in this section and Chief Stradley has been quite busy the past week directing new work. The Times-Herald has not received any particular information first-hand, but learn that much more work is planned for this season in the Harney country and everything indicates construction work to begin at Vale in the immediate future.

It seems the lines so far run through this valley, that is the approach and exit, are not yet wholly satisfactory and considerable reconnoitering will be made at once to find other feasible routes.

It is also learned that Engineer Buck and his crew are now at work going up the Blitzen river toward the P-Ranch.

The fact that the local quarters of the chief engineer are to be transferred to the Voegtly building indicates a considerable more work in this section and that it will take considerable time.
