JULIAN BYRD - - - - Manager

The Portland Journal again shows its thorugh knowledge of the Harney country. In referring to the recent marriage of one of our estimable ladies it incidentally speaks of her as the former teacher of the village school in a way that it would appear our little city had a one-room school house with perhaps half a dozen dirty faced scholars. The lady in question never did teach in Burns, and the eight teachers now employed in the schools of this place are still in their respective departments and Burns will not be without teachers for the rest of the school year at least.

Governor Chamberlain has vetoed the bill carrying our little measley $750 appropriation for a county fair. In justice to Governor George we will say that he made a clean sweep on all such bills, however, and didn't pick us out alone. Now if some one will test the Hart sheep grazing bill and have it declared unconstitutitutional we will have our usual blank, Goose egg, "23" and other "etcetera" that follows every session of the Oregon legislature.

Will R. King, the prominent Ontario attorney and politician, has been appointed one of the supreme court commissioners by Governor Chamberlain. This is quite an important position as the commissioners have practically the same powers as the supreme judges and sit on the bench with them. Mr. King is receiving the hearty congratulations of his many Eastern Oregon friends where he has had a very extensive practice

Viewing the results of the legislative session just closed from this long distance The Times-Herald is of the opinion that the people of Harney county were particularly fortunate in having Senators Johnson of Benton, and Laycock of Grant there to represent us.

The Governor has changed the order of things somewhat by handing us boquets in the fall and lemons in the spring. If he ever comes into these wilds again he will be in danger of losing his scalp.

If Governor George comes to visit our fair again this fall and attempts to play the races he'll be given the wrong tip every time.

The Harney county Fair Association is still in business and we're going to have a fair too.

TO BUILD TO CRANE CREEK.

The Times-Herald has been given what is purported to be a straight tip on railroad building and it is to the effect that the Oregon Eastern will be completed from Vale to Crane Creek Gap this season. It is known that men are now employed looking up the land titles along the right of way to that point with instructions to look into the titles of the present owners, when the land was acquired and what its assessed value is.

This would certainly indicate that the railroad people contemplated active work in the immediate future. If this is a fact it will not long remain a question and people who will govern their future movements by what the railroad does can begin their work with a definite plan. It will stimulate every industry in the Harney country.

There were those who feared that since the Harriman interests had secured the Corvallis & Eastern the work on the line would be abandoned, but there is no indication that such will be done. The work from all appearances will be pushed as rapidly as possible. If it were merely a matter of tonnage and the opening of the interior of this state for what local business there is in sight or what might be created by furnishing transportation, we might well be concerned by this latest acquisition of Mr. Harriman. But fortunately for us the route now being surveyed gives that railroad system quite an advantage in time across the continent, and as that is of particular importance we are going to get the line as early as it can be put through.

With such men as Harriman back of the Corvallis & Eastern it is almost assured that the Yaquina Bay will be made one of the most important harbors of the coast and his influence may get government aid in improving it as a deep water harbor. Just what effect this new buy will have upon the western connection of the road through this valley is not yet known. It is possible that two lines will be built from this place on to the West, one branch toward the Klamath section through Lake, and the other connect with the Corvallis & Eastern.

ARTESIAN WELL MACHINE ORDERED.

The Times-Herald is pleased to announce that local people have taken up the artesian well proposition in earnest and a machine will be here as soon as the roads permit. The machine has been ordered and will be at the railroad about April 1st. It is modern in every particular, equipped with all the necessary appliances to sink to any depth that would be practicable, with a twelve-horse power traction engine. The men who have taken this matter up are M. R. Smith and A. S. Swain. Both are reliable men and the firm has gone into the matter on a purely business basis asking no bonus or being under obligations to any one. They have paid cash for the machine and will be ready for business as soon as it is on the ground.

They will not lack for work as many are already talking over the matter and there is practically sufficient work in sight now for the entire season. They will be prepared to sink three different size holes from four inches up. The matter of charges has not yet been definitely settled.

This is a move that will receive every encouragement from local people who have long desired that a thorough test of the artesian possibilities in this valley. While we have every assurance that there is artesian water here at a reasonable depth, the matter has never been given a satisfactory test. The Government officials connected with the geological work have been very positive in the assertion that this is an artesian basin. Heretofore there has been nothing to encourage people to put any large amount into such machinery, but now with the coming of the railroad and a large influx of settlers who are taking up sage-brush land that cannot be otherwise irrigated, there is a demand for such work. Before the season is far advanced we will know definitely what can be done here with artesian water.

WANT'S A FRANCHISE.

At the regular meeting of the city council Wednesday evening M. L. Lewis made application for a telephone franchise for a term of 40 years. The matter was taken under advisement by the authorities and no hasty action of a definite nature will be taken. This is a matter that should be discussed amoung the business men of this city. Long time franchises are becoming quite an issue in all incorporated cities and towns. People are beginning to investigate the advisability of allowing concerns too much latitude in such matters and propose to regulate them in future.

At present such a franchise would be quite beneficial to the people of Burns and not necessarily of any particular value to Mr. Lewis—that is of sufficient to justify any material outlay upon his part—yet in 40 years it may be such a franchise would be a source of revenue to the municipality and be of sufficient importance to the holder to justify a money consideration.

In granting franchises we should always look to the future interests of our little city and at least place certain restrictions and some degree of power in the city authorities to regulate them. The Times-Herald believes in encouraging all enterprises of a public nature so long as it does not conflict with other interests of the same nature.

An ordinance was also passed raising the salaries of the marshal, recorder and treasurer to $65, $25 and $10 a month respectively.

These matters coming up just before the city election are of particular interest to the taxpayers and should be looked into particularly.

HIGH SCHOOL COMMENCEMENT.

The 1907 graduating class of the Harney County High School has organized and active preparations have begun for the commencement exercises to be held at the close of the school in May. The class numbers ten students and the exercises will be most interesting and good. The program will soon be completed and the various parts assigned.

The class officers are: Myra King, president; Clifford Reed, secretary and treasurer. Curtis Smith has been selected as salutatorian and Emma Muller, valedictorian.

NOTICE OF FINAL SETTLEMENT.
