BUDDIST - REG. NO. 2853

Hold on there, Mr. Farmer, we want to talk to you. When the bicycle first came in use the builders said the horse business was done for. When the automobile came they said the same thing.

Now, according to the statistics of the U. S., horses are higher than ever before and the demand cannot be supplied. Don't you think you can raise a good colt or two every year at a good profit? You can have a good team as well as your neighbor.

Some time when you're in Burns stop at the Lewis & Garrett barn and have a look at the big German Coacher that is holding court there. Have him lead out of his stall and ask all the questions about him you can think of - they will be answered correctly and politely.
