Preparations are being made for the closing exercises of the eighth grade of the public schools to be held at Locher's hall Friday, May 24. It is expected that all the eighth grade graduates of the public schools of Harney county will be present and participate in the exercises more or less. The impression that it is merely the public school of Burns is a mistake. A pleasing program is being arranged but has not been sufficiently completed for publication in this issue.

W. H. Howard, the Drewsey sheepman has been in the city the past few days looking after business affairs. Mr. Howard was awaiting the arrival of Dr. Lytle, state sheep inspector, who was to have been here this week for the purpose of looking over the field and starting his deputies out on the work right. The sheepmen hope to get more deputies in this county as it is a large territory and would be an injustice to hold the stock at dipping vats until two inspectors can superintend all the work. Dr. Lytle, no doubt, will comply with this as soon as he sees the situation.

BUDDIST--REG. NO. 2853

"Nothing like the expansion revealed by these official records has ever been known in the horse breeding industry. At first blush it would seem as if there must be an overproduction of horses when their numbers are increasing at the rate of more than 1,800,000 a year, yet the market records compiled by the Department of Agriculture go to show that production has been outstripped by the unprecedented industrial and commercial developments of the country, demanding millions more horses than ever before. The records disclose the fact that prices for horses on the farms have advanced more than 25 per cent within two years. Incredible as it may seem, the mere increase in the value of the horse stock since Jan. 1, 1905, is greater by \$106,000,000 than the total of all the horses and mules in the United States on Jan. 1, 1900."
