PUEBLO MINING BOOM.

Assessor J. E. Loggan returned home Thursday evening from the southern part of the county where he has been listing property. He reports quite a mining excitement in the Pueblo district and some rich strikes being made.

Senator Nixon of Nevada and Geo. Wingfield have been in that section and have bought several rich claims and everything indicates a sufficient amount of capital to develop the mines which means much activity. Prospectors are thick and it is reported a new town is to be started at the Ed Catlow place immediately.

George and Ora Hill have some of the best prospects in the district and have had very flattering offers but have not sold out. They have great faith in the mines there and believe it will equal or even surpass Goldfield, Nevada.

BUDDIST--REG. NO. 2853

"Nothing like the expansion revealed by these official records has ever been known in the horse breeding industry. At first blush it would seem as if there must be an overproduction of horses when their numbers are increasing at the rate of more than 1,800,000 a year, yet the market records compiled by the Department of Agriculture go to show that production has been outstripped by the unprecedented industrial and commercial developments of the country, demanding millions more horses than ever before. The records disclose the fact that prices for horses on the farms have advanced more than 25 per cent within two years. Incredible as it may seem, the mere increase in the value of the horse stock since Jan. 1, 1900, is greater by \$106,000,000 than the total of all the horses and mules in the United States on Jan. 1, 1900."
