...schutes grade is doubly ...e by the railroads and ...o secure it to the ex... ...others will be fortu... ...e river offers a water ...n the Columbia to the ... It is almost impossible ...his section by any other ...xtension of the Colum... ...ern south from Shaniko ...icable by reason of the ...ture of the country. ...llowing the Deschutes, ...ath may be found to the wide plains of Central Oregon. Construction along the river will be easy, it is said, far easier than the work along the Columbia accomplished by either the O. R. & N. or the Portland & Seattle.

Water grades, admitting of long trains of freight, are very desirable to all railroads and such an entrance into Central Oregon is worth fighting for. The contest between the three projects already in the field for the Deschutes grades promises to grow highly interesting as time passes. There is an easy crossing of the Columbia River available at the mouth of the Deschutes where a bridge can be thrown across the former stream if desirable to connect the Oregon Trunk with the Hill lines if the project is taken over by the Hill interests.

Eastern Oregon towns in the path of the proposed promise to take on considerable imporeance by reason of the projected construction. Settlers are pouring into the interior and the reproach that Oregon has the greatest body of land isolated from railroad facilities in the United States promises to be lifted within the next two years.

Ticks Worse Than Scabies.

Western sheep men, and sheep raisers of the entire country for that matter, are now confronted by a new enemy, or rather an old enemy who has grown in strength in recent years. We refer to the tick, which has come to be regarded as a more serious menace to the welfare of the industry than scabies. Sheepmen everywhere report that ticks are rapidly increasing in spite of efforts to eradicate the pest, and that unless there is a general movement against the enemy, there will be serious losses. Indeed the losses are already considerable, for it is well known that ticky sheep do not do as well or produce as much wool as animals that are free from the pest.—Prineville Review.

S. W. Miller, the postmaster at Paulina, is in the city arranging for the issuance of bonds by school district No. 27 to put up a new school house. Some $1250 is wanted for the purpose. Mr. Miller informs us that the people of Paulina and vicinity are making an effort to get a six day mail service instead of three days a week as at present.—Prineville Journal.

If you plant but one fruit tree have it the best—the best is none too good. You can procure the best for this altitude from Adam George. His company takes all responsibility and will replace. All trees warranted true to name.

NOTICE

Being unable to give our personal attention to the collection of the accounts due us, the same have been placed with Mr. C. H. Leonard. A year having elapsed since the dissolution of co-partnership a prompt settlement of the same is requested.

MARSDEN & GEARY.

NO TRESPASSING.

Hunting is forbidden upon my place adjoining Burns. Trespassers will be prosecuted.

C. H. VOEGTLY.

NO TRESPASSING.

Notice is hereby given that hunting and shooting upon the enclosed lands of the American Land & Live Stock Co. is strictly forbidden. Any person or persons found hunting or trespassing will be prosecuted to the full extent of the law.

E. B. HILL,
Ranch Manager.

NOTICE OF FINAL SETTLEMENT.

In the County Court of the State of Oregon, for Harney County.

In the matter of the estate of Thomas Howard, deceased

Notice is hereby given, that the Administratrix in the above entitled estate, has filed her final account, and that the Honorable J. P. Rector, Judge of the above entitled Court has set the 5th day of August, 1907, and at the County Judges office, in the city of Burns, Harney County, Oregon, as the time and place for the hearing of said account. All persons objecting to said account are hereby notified to appear at said time and place and file their objections thereto.

Dated at Burns, Oregon this 21st day of June, 1907.

MARTHA J. HOWARD,
Admix. Est. Thos. Howard, Dec'd.

ONLY TWO CASES OF SCAB

ALMOST CLEAN BILL OF FARE IN HARNEY COUNTY.

Flockmasters Must Keep Off Quarantined Range or Get Into Trouble--We Have 300,000 Sheep.

Harney county has in round numbers 300,000 sheep on her ranges according to the figures of the state and federal inspectors who have been at work carrying out the provisions of the new dipping law during the past three months. All of these have been dipped with the exception of about 100 head and in all this vast number but two flocks were found actually infected with scab. Both these flocks are quarantined and restricted to certain range, while clean flocks are kept off such range.

S. G. Shraiberg, one of the federal inspectors who has been directing the dipping operation in this county, was in this city for a few days during the week and called at this office. He states that the article in The Times-Herald of July 6 regarding the quarantining of range was misleading in that it said the state had been asked for a ruling on the proposition, when in fact the local inspectors had absolute authority to quarantine range and to enforce it. Section 19 of the Sheep Inspection law reads:

"In all cases where quarantine of sheep is authorized by provisions of this act, the State Sheep Inspector and his deputies and the officials of the United States Bureau of Animal Industry are each and all empowered to designate and specify the place, limits and boundaries of any quarantine area or territory, and they are hereby given authority over the same until the purpose of such quarantine shall have been effected, and any person, persons, firm or corporation owning or having in his or their possession sheep within such quarantine area, who shall permit or allow any of such sheep to go beyond the limits of the same, without permit from the official in charge, shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine of not less than $100.00 nor more than $500.00, and all the officials above named are hereby clothed with authority to control sheep and territory in quarantine, and to take and hold possession thereof as provided by the terms of this act, and for all the purposes thereof."

Mr. Shraiberg also wishes to impress upon sheepmen the importance of their notifying the proper authorities of any infectious disease making its appearance in their flocks. If scab is to be successfully stamped out it must be handled right and the co-operation of sheepmen will hasten this desired end. The attention of sheepmen is called to section 20 of the law:

"It shall be the buty of any person, persons, firm or corporation owning or having in his or their control any sheep which have become infected with scab or any other infectious or contagious disease, or which have been exposed in any manner to such disease, to immediately report the same to the State Sheep Inspector by registered letter, telegraph, telephone or in person, within fifteen days after the said condition has come to his or her knowledge, and failure to do so, or any attempt on the part of any person, persons, firm or corporation, to conceal the existence of such disease, or to willfully or maliciously obstruct or hinder the inspector or his deputies in the discharge of his or their duties shall be deemed a misdemeanor and shall subject offender to a fine, upon conviction, of not less than $100.00 nor more than $500.00."

Mr. Schraiberg has been assigned this territory for the fall inspection and expects to begin this duty about August 15. He insists upon sheepmen observing the law in every respect and will see that is done so far as possible. Should any sheep, now considered clean, trespass upon this range those responsible will get into trouble and be put to considerable expense to dip again.

Another matter that he considers necessary is raising the salary of the county stock inspector. The new law increases the duties of that officer very materially and his salary is not sufficient to justify the time it requires to do the work properly. Mr. Shraiberg will likely go before the commissioners the next court with this suggestion.

NOTICE FOR PUBLICATION.

UNITED STATES LAND OFFICE,
Burns, Oregon, July 24, 1907.

Notice is hereby given that Ferdinand M Tipton of Lawen, Oregon, has filed notice of his intention to make final five-year proof in support of his claim, viz: Homestead Entry No. 1828 made January 23, 1903, for the S½ of Section 4 Township 26 south, Range 35 east, W. TO GET MORE HOME-MAKERS

TOM RICHARDSON, THE ORIGINAL BOOMER, SUGGESTS.

Puts it up to Local People to Add to Our Population--Low Colonist Rates Should be Advertised.

Secretary Tom Richardson of the State Development League, sends us the following suggestions that should be acted upon by every booster in Harney county:

The supreme need of all Oregon and particularly your community is more home-makers. The opportunity to secure them under the most advantageous conditions is now at hand.

Several cities, towns and villages in this State will make a material addition to their population as a result of energetic work done collectively through the commercial bodies and individually by the citizens in advising the thousands of people back East of the low priced one-way colonist rates which will be put on sale September 1st and continue until October 31st, to Oregon, from all points in the United States.

These rates are agreed upon by all the railroads in the United States and Canada and are controlled by the Trans-Continental Passenger Association, and Oregonians must bear in mind that the home-maker is being invited on similar rates to Canada, California, Washington, Texas, Georgia, Oklahoma and other States, and the state community to which he will buy his ticket is the one that conivnces him in advance that their particular spot on this great earth is the one in which he should live. We have only one month left before the sale begins.

Rates to Oregon from Kansas City, Omaha, St. Paul, Minneapolis, and all the great Missouri Valley and west of there, is $25.00, with a reduction of $2.50 on each ticket east of Umatilla; from St. Louis, $30.00; New York $50.00, and a proportionate rate from any other point, large or small, but this ticket must be bought to your station, and not to Portland or some other city, if you expect them to come to you, and it devolves upon the readers of this paper to see that every letter that goes out of the post office carries with it correct information relative to these rates. Get all the facts from your local agent.

Get together from 10 to 50 active citizens, raise a little fund for the publication of small leaflet giving the importance facts relative to your community, along with these rates, and have the leaflet so light that it would not add to the cost of postage of a letter, and have a copy of it put in every letter written by business man or citizen.

Several ministers throughout different parts of the State, realizing the importance of these rates, are announcing the details about them in congregations and are asking that they write to their relatives and friends at a distance and tell them how cheaply they can come to Oregon.

Get your commercial body, or some one of your business men to offer a prize to the boys and girls who will write the greatest number of letters, or who will get actual results in bringing another family into the community.

The work of advertizing these colonist rates is up to each community and each individual. If we could add a hundred thousand to the population of Oregon in the next year it would mean many millions of dollars of additional wealth to the State.

The school population of one district in Tillamook county was doubled in six months through the correspondence of the pupils. Corvallis caused the sale of $600,000 worth of land through advertising in well-known agricultural papers in the older states. The Oregon Development League received over 16,000 inquiries from people wanting to know about Oregon farming lands.

There is an intense desire to come to the Pacific Northwest on the part of the people of the United States and this is particularly true of Oregon. Make it intensly true of your community. See your local agent and find out the exact rate. Get more particulars—post others—put up attractive notices in the post office and into other public places—get the new-comers to write to their old papers, and as an inducement to do this, let them understand that they can compete for the eighty prizes, or a total of $5000, offered by the Portland Commercial Club.

Nothing means so much to Oregon as the colonist rates, and when you read this remember that there is only one month in which to get in advance work.

Never mind the heat. Don't allow that feeling to keep you from doing your duty. The new home-maker may buy something you want to sell.
