Finance, published at Cleveland, printed last week an article on Oregon written by Bishop Scadding, referring to which it says:

"The wonderful development of the west which has taken place during the past five years and which is now going forward, is a matter of great interest to every citizen of this country."

The greatest development of our nation will unquestionably come in the development of the western half of the United States during the next 25 years, and in this great development of the west, Oregon will be at the head.

"The immense resources of this beautiful country of mountains and plain, of clear, cool mountain streams and wonderful health-giving climate are set forth in every interesting manner in the interview to which we have called attention."

"The possibilities of Oregon are indeed great, and whether one's life is east among the developed portions of our great country, it behooves one to keep in touch with the doings of those who are working in the newer lands."

It now develops, it seems, that the forest reserve policy is but an aid to capital. The government will just hold it in place in one solid block until such time as the syndicate wants a portion, then it is sliced off to them. Thus, the capitalist is not forced to lay himself liable to fraud in order to obtain the land and keep the citizens from obtaining claims. Such conclusions could, at least, be drawn from negotiations now under way concerning a portion of the Montana reserve.

And now comes the report from Anderson valley that green grass is growing, and is of sufficient height to be of benefit for grazing purposes. Now, Mr. Harman and the rest of you knockers, who think this country is only a paradise for coyotes and other scavengers, what have you to say to this?

A bill granting leaves of absence during December, January, February and March to homestead entrymen was passed by the United States Senate January 14. This will be appreciated by all homestead entrymen.

The U. S. postal department bars from transportation through the mails all 25-cent-a-year papers that conduct guessing contests, but allows free and wide circulation of the guessings given by the Supreme Courts.

MADE GOOD SHOWING

The annual meeting of the Harney County Fair Association was held last Monday afternoon and the reports of the officers of the business of the association for the year 1907 were most flattering and very satisfactory to the stockholders present.

Although working under disadvantages the board of directors made a good showing. With no outside attractions to assist in the gate receipts or otherwise add to the interest of the fair, on the 4th of July celebration which was under the management of the association—the revenues received over actual expenses were equal to better than 90 per cent of the capital stock paid in.

With careful direction and practicing economy, the association will do well this season and will be placed upon a good paying basis.

The same board of directors was re-elected: P. G. Smith, J. P. Farra, Geo. Hagey, V. J. Hopkins, Chas. Wilson, F. S. Miller and Wm. Farre. The directors perfected organization immediately following the stockholders' meeting by re-electing the old officers: P. G. Smith, president; J. P. Farra, Vice-president; Julian Byrd, secretary, Ben Brown, treasurer.
