Three Months... \$0.50

CLIAN BYRD - - - - - Manager

It has been the rule of the present management of The Times-Herald to allow subscribers all the time they want to pay arrears. Some have been allowed many years, but as they are all good people with reputation for paying their obligations...

Gov. Geo. E. Chamberlain has formally announced his candidacy for the United States Senate to succeed C. W. Fulton. Should he be elected he pledges himself to serve the people of the state irrespective of party.

The Times-Herald is pleased to note the liberality shown by local business men in subscribing funds to assist the Fair Association in sinking a test well for the purpose of ascertaining the depth necessary to secure an artesian flow.

The friends of C. W. Mallett of Malheur county have prevailed upon him to become a candidate for commissioner of that county. When the voters can get such men as Mr. Mallett for responsible offices they should make his election unanimous and politics should be eliminated.

J. J. Donegan has announced his candidacy for the office of assessor. Jimmie is one of the best known men in Harney county and has many friends who will rally to support him.

The petition of Wm. Morfit as a candidate for representative of Harney and Malheur counties were circulated here this week. Mr. Morfit is a well known business man of Malheur and is out on a Statement No. 1 platform.

READY TO PLAY BALL.

Sunset Valley residents witnessed a very one sided game of base ball Sunday when the regular team played a (Picked) team from around the Valley the score was 11 to 0 in favor of the Sunset team.

J. M. Henney who is acting in the capacity of manager has received Spaulding's new 1908 catalogue of sportsmen's goods and the team is anxious to play a benefit game with Burns that they may get some new paraphernalia and would suggest Sunday 19th day of April if the Burns people are in favor of the receipts of this game could be equally divided and both teams could

realize something from it. We have enough gloves, mits and mucks for a team but some of the mits are in bad condition and we would like to replace them with new before the season opens.

If the Burns fans would like to select some of the Spaulding goods the catalogue is at their command and we would be only too pleased to send both orders together as it would save considerable for both teams.

Suppose we have a field day on the 19th of April or there about and turn the proceeds into base ball goods to run the season and at the same time we could all spend an enjoyable day and prove our ability as athletes.

Among our athletic sports are: A standing broad jump of 11 feet 3 inches; running broad jump of 22 feet 1 1/2 inches; running high jump of 5 feet 4 inches, 1 mile in 4 minutes and 37 seconds; 100 yds in 12 seconds, 220 yards in 25 seconds, and a pole vaulter who is unable to say his correct record.

Come fellows lets show the people in Harney and other counties that we are as lively as any of 'em and not all burried in sage brush and juniper.

Respectfully, J. M. HENNEY, Sunset Valley.

P. S.—If any one desires to look over our catalogue address as above.

SCHOOL BENEFIT DANCE.

The enterprising people of Sunset Valley who have been so active in raising funds for the new school house in that district, have accepted in invitation to give a ball in this city on Friday, April 10, at Locher's hall.

An old fashioned basket supper will be spread in the hall, therefore it is expected that all will bring baskets and participate in this feature. Dancing tickets will be the usual price and all are promised a royal good time.

HARNEY VALLEY IS FIRST.

Mr. and Mrs. Chas. Wilson are back from a visit to Ohio and other middle states where they were guests of relatives and friends. Mrs. Wilson was quite sick a portion of the time but aside from that they had a very good time. Mr. Wilson says that people are coming west by the thousands and one is besieged with questions as soon as it is learned they are from the west.

He had the distinction of being one of the 1200 banqueters to sit down at the table with W. J. Bryan at Columbus, Ohio, and heard that distinguished man deliver what was credited by those who had heard him before one of his greatest speeches. Chas. says he was attempted to invite Mr. Bryan out to see us during fair week, but considering the fact that a presidential campaign would be at white heat it might be asking too much from the distinguished gentleman at that particular time, therefore, didn't suggest it.

Mrs. Wilson did not come in on the stage with Chas. but went to Willamette Valley to visit for a short time.

The Grant County News gives an account of the organization of the newspaper men of that county with O. L. Patterson of the Eagle as president, W. E. Weir of the Ranger, vice-president, P. F. Chandler of the News secretary. The election of a treasurer was deferred. We'd apply for the position if we thought there would ever be any money, but, being on the inside of the situation we fail to see the necessity.

Austin Goodman's wood saw and barley roller will continue to serve the public in this section until May 1 when he will take the engine to other parts to operate his sheep shearing plant. Better get your work done now.

CAREY ACT DECISION SUSTAINED.

The Times-Herald learns that the commissioner of the General Land Office has sustained the local officers in the main points of the Carey act segregation of the Harney Valley Improvement Co., and holds that the contract be cancelled. The commissioner claims that between 27,000 and 28,000 acres of the land selected are not desert.

Local Doings of Malheur Pass

The new settlement in the Malheur pass is progressing fine many new comers have taken up land and some that filed last fall and summer are coming in and cutting sage brush to put in a crop.

A. B. Bennett of Oklahoma, who settled on a claim last fall, is looking for his family. They will buy teams and wagons at Ontario and come through by team.

Uncle Jo Fritch, who landed here Feb. 12th, took a claim and built a house, dug a well got 4 feet of good water at 20 feet. He is well pleased with the country and is getting ready to sow grain.

Mrs. Arnold and Henderson who took claims last fall are building houses and digging wells. They are from Iowa and are well pleased with the country.

Carl Horseman, who built on a claim last fall, has come to stay and brought some of his old friends and his father and family. They will all take up claims.

Eld Fritch has quite a lot cleared and plowed ready to seed to grain. He will put in 6 acres of garden and irrigate it from three wells. He has just dug a well near the foot hills got good water in gravel at a depth of 22 feet. He will put in a pumping plant to irrigate his garden and berries. He is putting in two acres of berries of different kinds also quite a nursery stock.

We understand that Mr. Maddux has put in a large pump and will get a 5-horse power gasoline engine to irrigate his desert.

J. R. Fritch a brother of Eld Fritch has been a visitor of his brothers. He sold his holdings in Oklahoma and will take a tour over Oregon, Idaho and California. He was delighted with the opportunity here and said it was the best he had seen so far and if he did not see anything better he thought he would come back and locate.

Bert and Ed Fritch have recently taken claims. They took claims just as near as they could get them to the school ma'am's. It is supposed they will be neighborly and visit each other very often.

Eld Fritch preached to a good congregation last second Sunday at the Thompson school house meeting there every second Sunday and they are talking of getting up a singing school.

The subjects of Rev. A. J. Irwin's discourses for Sunday, March 22, are: "A Clue to the Influence and Power of Christ's Preaching," in the morning, in the evening, "The Finish on the Edge." A most cordial welcome is extended to all.

Adam George has 21 quarter sections of grain land. Tracts from 160 acres up to 640 acres. This is not 65 bushels per acre land, but 45 bushels. Stock ranges from 620 up to 4050 acres. All well watered no hoisting of water, ranging in prices from \$10 to \$27.50 per acre.

POLITICAL ANNOUNCEMENTS.
