THE OLD FASHIONED

ideas of conducting banking along safe conservative lines that have stood the test of ages, ARE GOOD TODAY. The establishing of a large surplus in conjunction with strict conservatism, while old fashioned ideas, have proven the time tested foundation stones of safety to depositors. Our large surplus, now equal to EIGHTY per cent of our capital, created through the careful conduct of our business, is evidence of our conservatism, and proof that the old fashioned ways are best for ourselves, and consequently best for our depositors.
