

SATURDAY, JULY 18, 1908

SUBSCRIPTION RATES:

One Year \$1.00
Six Months .50
Three Months .30

Stock quotations from the outside indicate an upward tendency in cattle. This will be good news to the growers of this section as they will no doubt soon have quite a number to turn off.

At a recent meeting of the advisory board of the Grant County Stock Growers Association the board was most emphatic in its expressions of disapproval relative to cases where the department had discriminated in forest reserve matters to the disadvantage of local stockmen.

This great religious weekly is in receipt of a bulletin from the Agricultural college on the subject of properly thinning fruit. There are very few fruit trees in this section this season that need the thinning process.

Mules seem to be in demand. Ready sale at good prices appears to be the inducement offered ranchers to turn their attention to raising mules instead of horses.

A prominent stock dealer of Eugene Oregon, passed through Prairie City this week, and while here found that he had been made a victim of a clever swindling scheme, whereby he is a thousand dollars loser.

THIS MAN WANTS TO KNOW.

To the Editor:—I wish to ask the Honorable District Attorney, through your valuable paper, to please define intoxicants, as I am tending bar for Mr. Del Defenbaugh in this county; the saloon is just half a mile from the Nevada line and there is another saloon just over the line.

Now, in regard to gambling: Where do you draw the line? Will the citizens be allowed to deal in watered stocks, railroad and mining shares, and will the small gamblers and racing men be prohibited?

Denio, July 11, '08.

Respectfully yours, E. GILHAM.

OF INTEREST TO TEACHERS.

County Supt. Hamilton has sent us the following circular from State Supt. Ackerman with a request that it be published: "Our last edition of the State course of study is exhausted; hence it is impossible for many applicants for the forthcoming August examination to secure copies of study from which to make preparation for such examinations. Therefore, no questions in any subject are to be taken from the State course of study for the August 1908 examination."

IT RAINED MONDAY.

After a continued dry spell of considerable length we were visited by a heavy rain storm Monday which has brightened crop prospects considerably. The rain was preceded by a severe wind that shook things up some and took away about all the dust. The wind did no material damage

as very little grain was blown down. The grain crops were materially benefited but the yield this season will not be up to the average on account of the unfavorable weather early in the spring. Our new settlers are not discouraged, however, and are preparing for larger acreage next season.

No. 8691.
