ALFALFA MEN.

"Alfalfa meai" is looked upon as the coming food for stock in the Northwest where fattening is necessary. This fodder is now be will have a in the state of Colorado and shipped to the fattening grounds of Illinois, Nebruska and Missouri, have been investigating its ad-

Heretofore Oregon and Washgton, as well as Idaho and shoop to the feeding grounds of the cast. This stock, bought here in good condition, but not fat enough for the butcher, has inter, where it had to be kept for a year or so before being conidered in for the market at Chicago, Kansas City or Omaha. The idea has consequently premiled among stockmen that Oregod will do very well to raise stock, but not to fatten it. With the introduction of "alfalfa meal" this notion will vanish, as it can be produced cheaper here than corn can in the states of the Mississippi Valley, The Portland Commercial Club is having the advantages of "alfort and the stock falfa meal" Investigated with a very attractive the idea of having the mills for division will again grinding it started in different field, such as raking hay, plow-
