

VALUE OF WATER TO OREGON.

(Continued from page one.)

eration at our present rate of consumption. No one has measured the ingenuity of man, but the only present substitute in sight for all this consumed coal and wood is the heat and power resulting from electrical energy.

There are little straws of evidence flying everywhere, all telling us that there are men of money who are reading the times and building themselves a warm nest for the future.

Just received a consignment of ladies and misses cloaks—Lunenburg & Dalton.
