With this issue the Times-Herald begins its twenty-second year of continuous publication.

The present management has been connected with the paper since 1889 and has had the satisfaction of seeing it grow in every way from a circulation of a few to double, triple and on until it has reached a very substantial place in the newspaper field.

Each year The Times-Herald extends its field of usefulness and its business increases correspondingly.

The subject of time is a "timely topic" just now and we certainly should get a standard time. As it is—and has been for years—every household has its own time and each is justified in claiming it right under the circumstances.

The people of Harney county have many things to be thankful for and among them is that we still have prospects for a railroad at least.

W. J. Bryan has just stated that he doesn't wish to be a candidate again, but if circumstances make it necessary he will be the nominee four years hence for the presidency.

A CO-OPERATIVE WOOL WAREHOUSE.

Eastern Oregon wool growers will be asked to take stock in a national Co-operation wool warehouse to be erected by members of the national association.

The Blue Mt. Eagle says: The railroad grade from Huckleberry flat to Prairie City, as surveyed by Jos. Reese, is pronounced by no less a person than Jos. A. West, general passenger agent for the Sumpter Valley railway, to be a good one.

IF YOU CARE FOR STYLE. If you care for style and lot of people do, it can be had in any Vehicle on our floor.

Chicago has been selected by the committee as the proposed site of the ware house and it is expected to finance a monster storage quarters 67 per cent of the stock to be owned by the grower and 33 per cent to be taken by the business men of Chicago.

Under this plan the grower will ship to Chicago, store his wool in the city until he gets ready to sell in case he wants money upon the crop arrangements have been made by which the Chicago banks will advance 90 per cent of the value upon the wool as security, and not until the men are satisfied to sell

will the title to his product pass into the hands of others. Sales will be made from the warehouse direct to the manufacturer. In order to assure buyers the merchants of Chicago have pledged themselves to insist upon and buy only goods made from the wool stored by the co-operative growers if the ware house is erected.

THANKSGIVING SERVICES.

The annual Thanksgiving service will be held Thursday, November 26, at 11 a. m. in the Baptist church. Rev. A. J. Irwin will preach the sermon. The order of service is as follows: Organ Voluntary, Doxology, Invocation, All Standing Response, Hymn, Reading the Proclamation, Anthem "Jubilate Deo", Dudley Buck

Scripture, Psalms 95, 96. Prayer. Anthem "Venite" Schaecker Sermon: "The Value of a Thankful Spirit," Psalm 92:1 Hymn, America. Some especially good music appropriate for the occasion, has been prepared. It is most kindly requested that the business houses be closed from 10:30 until 1 o'clock on Thanksgiving day.

The following program was rendered: Song by School, Catch the Sunshine

THE GRADE IS GOOD.

The Blue Mt. Eagle says: The railroad grade from Huckleberry flat to Prairie City, as surveyed by Jos. Reese, is pronounced by no less a person than Jos. A. West, general passenger agent for the Sumpter Valley railway, to be a good one. President David Eccles, Jos. A. West and F. C. Branwell are expected to arrive this week, when this route will be given careful consideration. By coming into the John Day Valley in this manner it is understood that a better grade may be obtained on south to Burns by coming via Logan Valley thence down by way of Bear valley.

IF YOU CARE FOR STYLE.

Chicago has been selected by the committee as the proposed site of the ware house and it is expected to finance a monster storage quarters 67 per cent of the stock to be owned by the grower and 33 per cent to be taken by the business men of Chicago. Experienced men will be employed to handle the business features and it is planned to store 25,000,000 pounds of wool in the co-operative warehouse each year for at least three years.

Under this plan the grower will ship to Chicago, store his wool in the city until he gets ready to sell in case he wants money upon the crop arrangements have been made by which the Chicago banks will advance 90 per cent of the value upon the wool as security, and not until the men are satisfied to sell

The Stag is one of the latest and best additions to the famous Deere Line of Riding Plows. It is light in weight, simple and durable in construction—full of genuine merit, and has shown its mettle and utility in every test it has been put to. It has amply demonstrated by its good work its right to be classed as a strictly up-to-date, high-class farm tool. It is certain to suit the most critical farmer and be a money-maker and a labor-saver for him.

"If It's a Deere—It's Right"

and does its work perfect ease to the operator and team. It is manufactured and sold as a tongueless plow—a tongue not being necessary to best results, but one is supplied at slight cost to those who prefer it that way. The Stag is the simplest riding plow built,—anyone who can hook up a team and drive 'em straight can operate it successfully. It possesses many superior features not found on other plows, and it takes a whole book to illustrate and describe them. Better write for it today and all the information you want about this superior implement.
