If the business men of Burns will follow up the work started at the meeting held last Monday evening at the club rooms of the B. A. C. and each individual give his personal attention to whatever he is capable of, we shall accomplish much good for Harney county.

The Portland newspaper men who were recently indicted for libeling Wm. Hanley and Mr. Corbett should be dealt with as they deserve. Such attacks upon the character of men should not be passed by lightly.

Parental responsibility has come to a low ebb, and discipline is almost obsolete. The sacredness of the home has become a farce in too many cases.

The breathless whirl of pleasure seeking also reacts upon the child. Vaudeville shows and skating rinks absorb the time and nervous energy that used to be conserved at the fireside, around the evening lamp.

We would need no truant officers nor juvenile courts if homes were conducted as they should be. If cheap amusements and soul-deadening pastimes were tabooed, and homekeeping habits were revived, and parents realized that they are responsible for their children, not the teacher or policeman, penitentiaries would be less crowded and Socialists would have less to talk about.

A GOOD START

The meeting last Monday evening at the B. A. C. club room called for the purpose of advancing Harney county's interests in the way of securing a dry farm experiment station for this section was quite well attended and a good deal of interest was manifested.

Hon. Frank Davey, I. S. Geer, J. L. Gault, Dr. L. E. Hibbard and Archie McGowan were appointed a committee to present suggestions as to the best manner to proceed and these gentlemen have given the subject careful consideration.

hand Tuesday evening to take active part in this move. It is of interest to the entire county and the business men of Burns would welcome the assistance of all public spirited people through out the entire Harney county.

FROM SOD HOUSE

Real winter weather in this vicinity the thermometer registered 2 degrees below zero Friday morning.

"There is music in the air," Alva Springer is wearing about two hundred head of calves.

Road Master McKenzie is gravelling about two miles of road in our vicinity. He is making a great improvement on the road and the people will not have to drive through mud holes any longer in the spring of the year.

Quite a number of trappers have camped on the Spring Branch for the purpose of trapping Musk-rats through the winter season. They claim the hides to be worth from 18 to 25 cents each which makes rat trapping a profitable business.

Quite a large party congregated at the home of Mr. and Mrs. Alva Springer about 4 o'clock Saturday eve, and about dusk proceeded to John Marshall's home for the purpose of surprising Mrs. Marshall. It proved to be a complete surprise and the merry crowd enjoyed themselves with games and dancing until midnight, when a lunch was served.

I want every Boy and Girl in this section from one to ninety years young to see H. M. Horton's holiday goods before buying elsewhere.
