G. S. Field of Dayton, Wash., is in this section to make a thorough examination. He is very favorably impressed and will likely be followed here by many friends and relatives. He will leave tomorrow or next day for a tour of the southern part of the county.

Harney county is filling up rapidly with a desirable class of people and from now until next fall there will be a continual stream. There is one man in this section at present who says if the country proves as good as represented he will be followed by 700 people by June 1. We believe the country will come up to expectations as all reliable people here have been quite modest and conservative in their representations of the Great Harney Country.

GAS, OIL, GOLD MINES.

At a special meeting of the Commercial Club last Tuesday evening the resolution to participate in the Alaska-Yukon exposition was reconsidered. This was done because of the fact that a small amount of the actual resources of this county was available at present and it would be better not to attempt a display unless it was a good one.

A. Venator was present and suggested that the Club should assist the Harney County Fair in every possible manner to secure a good display this fall and keep it intact to send to the Omaha Corn fair in December. Mr. Venator said that in this way Harney County would reach many thousands of the farmers of the middle west and the class of people we most desired. This suggestion was well received and the Club finally adopted a motion instructing the committee to ask the county court to appropriate \$1000, one-half of which to assist the local fair and \$500 for the purpose of advertising Harney county.

While there was more or less fun created in the discussion of the recent gas discovery near the lakes, there was some serious thought given to the matter and it was generally considered that the possibilities for oil should be investigated. Mr. McKinney stated that Jack Darst had recently tapped the main ledge of his gold mine at Idol City at the 100 feet depth where he found a four-foot vein assaying \$10 free gold and concentrates \$275 to the ton. Mr. Darst has most consistently pursued development work there and his hopes have been rewarded. This is of considerable importance as it places this camp one of the best in the west.

The Club elected the following delegates to attend the Oregon-Idaho Development Congress meeting at Ontario: Frank Davey, Dr. L. E. Hibbard, Dell Dibble, A. Venator, A. W. Gowen, C. F. McKinney, Dr. W. L. Marsden, Wm. Hanley, Sheriff Richardson, Julian Byrd, J. L. Gault, Platt Randall.

L. Schwartz, Sam Mothershead, Dr. W. C. Brown and several others may also go if they can arrange their business so as to be absent. It is not positive that all those named will be able to go.

Number 10. The Banker's Attitude The men who organize banks do not have selfish motives. Besides being a business proposition whereby a rate of interest is earned on the money invested in the banking business—a rate consistent with safety—the bank is a public institution. The banker's aim is to help his customers financially, to give each better facilities with which he may carry on business, to furnish a system that insures safety for business transactions, to render assistance to men in giving them credit for doing business. The experience and position of the banker enables him to judge a man's problems accurately and give him practical advice on financial matters. The banker welcomes new business, he appreciates the business from his patrons and seeks the opportunity to help those who come to him for advice. He can diagnose a financial case and administer relief as well as the doctor in his line. He is in touch with business conditions, he knows the causes and remedies for business ailments, he can tell you how to regulate your business pulse and bring it up to normal. The banker's remedies and methods are not experiments, they have been administered to others and proven successful. Bring your business case to this bank for relief.
