Object to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by all good dealers.

The Strength of a Horse

The power of a horse to pull a load is regulated by the closeness of that load to the horse. Any calf can pull a boy all over the lot if the rope is short enough.

Your capacity to carry on your business easily and with success depends upon your bank connection—what service you get from the bank of your choice. Your future success, depending on present service, is regulated in part by whether or not you get close, personal service from your bank.

Your business success depends upon the convenience you receive, the help you get every day, in easy times and "hard" times, when you want assistance and when you want it at the same time others do.

The bank that places its officers in close touch with customers and their business bears the same relation to the power to "push" business as the closeness of the horse to his load determines his pulling power.

Our officers are easily accessible, they are glad to give personal counsel, they will take an interest in the success of your business.

This bank will help YOUR business. Our service is adjustable to YOUR requirements.

A Savings Bank Department is a feature of this Bank, in which interest at the rate of four per cent per annum is allowed.
