it would involve \$10,000,000. What method the Oregon trunk people will employ in cutting up these tracts which have already been acquired and which are held under option and which are being negotiated for, cannot be learned. The prices paid for some of the larger tracts have run from \$15 to \$25 an acre. Some of the tracts have cost con- and bound on to the affected siderably more.

Money irrigation is one of the greatest back if not as represented. uses of water in this region. He says the reclamation fund is not large enough to do the work with the speed desired. He urges that in forming the new waterway fund, storage of water and irrigation should be an essential part of development of streams for navigation. Thus the waterways fund should contribute to the reclamation fund.

OC MERRIAM CO

We have arranged to offer in connection with this paper, the new monthly farm magazine just started at Lincoln, Nebraska, by Prof. H. W. Campbell and devoted to the subject of how to farm in the dry country and how to get best results from soil tillage under normal conditions. This Paper is Campbell's Scientific Farmer and we offer it clubbed with The Times-Terald both for \$2.50 per year cash. Prof. Campbells' new paper is a monthly, chock full of good things, the only paper of its kind in the world, and it embodies the results of the editor's many years everywhere as Dr. Shoop's Health of painstaking investigation of the soil tillage proposition.
