The assertion of Judge Lovett, the new head of the Harriman system, that the lines would invade all feasible sections of the northwest without delay, is encouraging.

According to Lakeview papers great preparations are being made in that district to plant orchards. That section is higher than this and yet just over the line in California fine fruit orchards thrive.

The time for children to attend school is during school. After a boy or girl gets about half grown and behind those of their age in school work it is difficult to get them to attend school.

There was a very pleasant party given at the home of Mr. and Mrs. E. C. Eggleston Saturday evening for the benefit of the Christmas tree.

The recent rain has done this locality a great deal of good, and the farmers are all tickled fit to bust to see their fall grain making such a fine growth.

Dr. Marsden and Frank Ellis passed through Sunset Sunday on their way to Burns from Narrows.

ENCOURAGING RAILROAD NEWS.

Millions of dollars will be expended in extending the Harriman lines into Washington and Central Oregon; the Deschutes Canyon will be traversed by the Harriman lines, regardless of the contention of the Hill roads.

"Our roads will extend through the proposed route through the Deschutes pass, whether any other road does or not," said Mr. Lovett. "If the union depot for Spokane seems feasible and practicable, this city will have the support of the entire system."

through to our final destination. "I cannot say specifically how much money will be expended in developing Central Oregon and Washington this coming year. It would be impolitic. The amount, however, will run into millions. Every acre of territory which is legitimately ours to develop will be developed.

"While I would not predict a sudden era of renewed and invigorated prosperity in any line, I will say that the country is in a good way to even better and more substantial commercial development, and in the Pacific Northwest is this statement to be applied. Out here I can see evidences of progress in every line. It would be impossible for a railroad to stand still in this section of the country.

ACCIDENTALLY SPOT.

Pat Connolly came over from Drewsey Thursday morning accompanied by his brother-in-law, W. F. Harland, had who been accidentally shot in the back of the neck with a 22-calibre rifle.

They had been killing hogs at the Connolly ranch and Mr. Harland had entered an out building near when a Maggie lighted on a bush near. One of the men picked up the rifle they had been using and fired at the bird. Mr. Harland was in direct range, the bullet passing through the wall of the building and lodging in his neck. Fortunately the wound is not serious and the injured man will soon be well.

Drs. Marsden & Griffith located the bullet by means of the X-Ray and decided not to attempt to remove it as it will do no harm.
