This mining district is about 20 miles from Burns and first attracted attention in the 80's. The men who have continued in the work are going to make good money and be rewarded for their persistence. Local people hardly realize the real worth of this mining camp, it being better known in Canyon City and even Baker City than in Burns. Mr. Darst is now sinking two shafts on a very promising vein. He is interested in eight claims.

DID YOU KNOW

That two flows of natural gas under an enormous pressure have been developed in Harney Valley?

Did You Know that the visible indications point to Harney Valley as being underlain with one of the greatest deposits of light gravity oil in the world?

Do You Know what that means to Central Oregon? It means railroads and the development of all the resources of this great inland empire.

Do You Want to share in the enormous profits that await those who first tap this immense pool of oil?

The Harney Valley Oil & Gas Co. offer you this opportunity. With stock selling at 5 cents per share (par value \$1.00) it is an opportunity unparalleled in the history of oil development. We will gladly answer any and all correspondence. Address Harney Valley Oil & Gas Co., Burns, Oregon.

The Stag is one of the latest and best additions to the famous Deere Line of Riding Plows. Is light in weight, simple and durable in construction—full of genuine merit, and has shown its mettle and utility in every test it has been put to. It has amply demonstrated by its good work its right to be classed as a strictly up-to-date, high-class farm tool. It is certain to suit the most critical farmer and be a money-maker and a labor-saver for him.

"If It's a Deere—It's Right"

and does its work perfect ease to the operator and team. It is manufactured and sold as a tongueless plow—a tongue not being necessary to best results, but one is supplied at slight cost to those who prefer it that way. The Stag is the simplest riding plow built,—anyone who can hook up a team and drive 'em straight can operate it successfully. It possesses many superior features not found on other plows, and it takes a whole book to illustrate and describe them. Better write for it today and all the information you want about this superior implement.
