The Normal School question is fairly before the voters by the Initiative Bill for Monmouth framed by her Alumni. This separates it wholly from politics, and gives the voters a fair chance to express their choice. Schools are a necessity—we must educate the boys and girls—and we must have teachers, the Normal School is the place to train and prepare these. Vote, Yes, for Monmouth.

READ ABOUT THE Mt. Vernon Hot SPRINGS They are located in the beautiful John Day Valley, 2 1/2 miles north of Mt. Vernon, and 12 1/2 miles west of Canyon City in Grant county, Oregon. The elevation is 7200 feet and the climate is mild throughout the year. The springs which furnish water for the bath and swimming pool flow 25,000 gallons per day of highly mineralized hot water of a temperature in the different springs of 100 to 122 F. These springs are without rival or competition for the reason that you can get the water just the proper temperature for bathing without artificial heating or diluting with cold water and thereby destroying the medical properties. These springs have just come to public notice for the reason that they have just been fitted up for the comfort and benefit of the invalid and those seeking recreation. Nature was the chemist who compounded the water which cures, and in her laboratory deep in the mysteries of the earth she prepared these curative waters; and those suffering from rheumatism, gout, skin disease, kidney or bladder trouble or any catarrhal condition of the stomach find almost instant relief and in most cases permanent cures in from four to eight weeks. Our charges are reasonable. Come when you will winter or summer; we are always open and ready to welcome you.

Come In And Ask About It

We want to tell you about the latest and newest labor saver for the farmer—a marvel of mechanical genius—a regular "Jim Dandy"—the light, handy and simple

Fuller & Johnson Farm Pump Engine

You never saw anything like it before—nothing like it has ever been made. It makes a windmill pump into a perfect Power Pumping Plant in a few minutes, and besides pumping, it runs separator, churn, grindstone, or any machine ordinarily run by hand. You do the attaching yourself. Costs less than a windmill! It's well worth a special trip to learn about the most wonderful invention you ever heard of. Next time you are in town come in sure. We want to give you a catalog free.
