READ ABOUT THE

Mt. Vernon Hot SPRINGS

They are located in the beautiful John Day Valley, 2 1/2 miles north of Mt. Vernon, and 1 1/2 miles west of Canyon City in Grant County, Oregon. The elevation is 2700 feet and the climate is mild throughout the year. The springs which furnish water for the bath and swimming pool flow 25,000 gallons per day of highly mineralized hot water of a temperature in the different springs of 100 to 122 F. These springs are without rival or competition for the reason that you can get the water just the proper temperature for bathing without artificial heating or diluting with cold water and thereby destroying the medicinal properties. These springs have just come to public notice for the reason that they have just been fitted up for the comfort and benefit of the invalid and those seeking recreation.

Nature was the chemist who compounded the water which cures, and in her laboratory deep in the mysteries of the earth she prepared these curative waters; and those suffering from rheumatism, gout, skin disease, kidney or bladder trouble or any catarrhal condition of the stomach find almost instant relief and in most cases permanent cures in from four to eight weeks.

Our charges are reasonable. Come when you will winter or summer; we are always open and ready to welcome you.

For further information address, H. A. MURPHY, Proprietor Mt. Vernon, Oregon.
