VALUE OF OUR COUNTY FAIRS.

The Lane County Agricultural attractively arranged exhibits evening. How in the world would the busy farmer know what his equally busy neighbors were doing in the line of raising stock, wheat, poultry, vegetables, grain, hay and hops; in dairying, fruit-caning and prune-drying, if he and they did not stop long enough at the end of the harvest season to come together and compare notes? And how would he and they profit by the experience of and the comparison of the results of their endeavor?

The agricultultural fair is not a new institution in this state, by Lafferty, congressman, F. W. any means. It is, in fact, nearly Benson, secretary of state; T. B. or quite half a century old.
