Electric light patrons were somewhat disappointed when they failed to receive service on the first of the month. The mill is grinding flour at this time and is using all the water, therefore power for the lights is lacking. We understand the light people have secured power privileges at the Sweet dam and that the plant will finally be moved to that point where it is hoped to be able to furnish continual service. This should be rushed by the company as patrons desire continuous service, and there would be a greater number put in lights if they were assured of good service the entire year.

COMMUNICATED.

To the Voters of Harney County: In asking for your support for re-election to the office of Sheriff of Harney county, on Nov. 8th, 1914, I wish to say that owing to the work in the office at this particular time I shall be unable to make a canvass of the county in my own behalf. I have tried during my tenure of office as sheriff to perform the duties pertaining to the office honestly and conscientiously, and if again elected, I shall continue, as heretofore, to conduct the office always to the best of my ability, and to enforce the law in a fair and impartial manner.

The experience I have gained in the past makes me better qualified to perform the duties pertaining to the sheriff's office this time. I fully appreciate the confidence and trust the voters of Harney county have placed in me in electing me to the responsible office of sheriff, and I again ask your support feeling that my record is worthy of your consideration.

A. K. RICHARDSON.

A GOOD POSITION

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Oregon, operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details.
