JULIAN BYRD — — — — Manager

The weather on election day portended the result on the liquor question.

Yes, there were several surprises on the result of the election, but you always find the "I told you so."

"Teddy" was hit hard in New York, but he is one of those that can "come back." He's not in Jeff's class, you know.

The man who offered to bet potatoes on the result of the election was certainly a sport. The butter and egg man is in the same class.

We'd better get busy now for the advent of a big lot of new people who are sure to come in the spring along with railroad construction.

The next thing is Thanksgiving turkey. The election will be fought over for a short time only by those who "know how it happened."

The Oregon and Western Colonization Co. issued some very attractive descriptive pamphlets of the Interior of Oregon. They are very good but the population given of Burns and Harney will not be fully verified by the census report.

The counting of the votes after the recent election shows that party lines were not drawn by any means. Very few straight ballots were cast in Burns and returns from other precints show the same all over the county. Voters were evidently voting for the man and that is right.

The daily papers of Portland have certainly gone the limit in the recent campaign in abusing the leading candidates on both sides. It was ridiculous and did not gain any votes for their candidates nor any praise from their readers.

The Times-Herald is publishing portions of Prof. Shaw's speech on dry farming recently delivered at Spokane. This is a repetition in some instances of former utterances of that gentleman, but they'll stand repeating.

THE ELECTION.

The result of the elections throughout the United States Tuesday was decided democratic. The party has gained control of the house bnt for present information at hand in seems the republicans will have a small majority in the senate. Following are some of the governors elected:

Connecticut—Simeon H. Baldwin (Dem.) governor by 5000.

Colorado—John H. Shafroth (Dem.), governor by 15,000.

California—Hiram W. Johnson (Rep.), governor by 30,000.

Minnesota—C. H. Eberhart (Rep.), governor by 30,000.

Massachusetts—E. N. Foss (Dem.). governor by 30,000.

New York—John A Dix (Dem), governor by 30,000.

Ohio—Judson Harmon (Dem.), governor by 98,000.

New Hampshire—R. P. Bass (Rep.), governor by 6000.

Pennsylvania—John K. Tener (Rep.) governor by 80,000.

Rhode Island—Governor Pothier (Rep.), re-elected by 8000.

Tennessee—B. W. Hooper (Rep.), governor by 15,000.

Wisconsin—P. E. McGovern (Rep.), governor by 42,000.

Michigan—C. S. Osborn (Rep.), governor by 15,000.

Nebraska—C. A. Aldrich (Rep.), governor by 15,000.

NewJersey—Woodrow Wilson (Dem.), governor by 15,000.

Kansan—W. R. Stubbs (Rep.), governor by 20,000.

Iowa—Governor Carroll (Rep.), re-elected by 15,000.

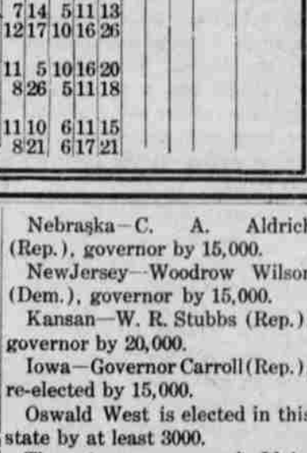
Oswald West is elected in this state by at least 3000.

The vote on governor in Idaho is very close with Hawley (Dem), in the lead. It will take the official count to decide it.

Lafferty and Hawley, both republicans, have safe majorities for congress in this state.

Harney county's election was very close in some offices. At one time it was thought it would take the official count to decide the vote on clerk but later the reports give the election to E. B. Watters by about 15 votes.

Sheriff Richafdson has been re-elected and Simon Lewis has



Governor-Elect Oswald West

defeated E. N. Jameson for treasurer. These are the only democrats elected, the other offices will be filled by republicans but it seems with a less majority than a straight party vote.

One of the big surprises was the election of Dalton Biggs by a large majority as circuit judge over Judge Davis, present incumbent. The latter carried Grant county, his home by about 140 votes while Mr. Biggs carried Malheur county by over 350 and his majority in this county will be about 100.

W. H. Brooke has been re-elected representative of the district by a small majority.

It appears from information at hand that prohibition has lost in this state and it is possible home rule has carried, although the outlying districts may defeat the measure when the returns are in.

The figures in the table given this issue are all that could be obtained at this time as to the result in this county. None of the outside precincts have furnished

Congressman-Elect A. W. Lafferty.

FOREST FIRES.

It has been estimated by the Forestry Bureau of the Department of Agriculture that the recent forests conflagrations which took place in Montana and Idaho in the national forests have killed or destroyed over six billion board feet of timber.

Of this heavy loss the heaviest was probably in the Idaho forests, where over three billion board feet of timber has been reported killed or destroyed, with a burned over district of more than 450,000 acres.

At the present rate of cutting from the national forests, the six billion feet is equal to about twelve years' supply; but it is less than one-sixth of a single year's cut in the whole country, or enough to keep all our lumber mills busy for something like two months. It is estimated that the lumber burned up or killed amounts to [illegible] per cent of the total stand of national forest timber.

It is almost impossible at this time to estimate how much of the six billion feet which was destroyed can eventually be salvaged. If it proves to be a total loss, and should its stumpage value be placed at the same figure at which national forest timber was sold last year, it would mean a money loss of about fifteen million dollars.

This valuation does not of course include the destruction of the many towns and villages and the loss of homes and life. It proves, however, the advocacy of a better force of men to look after the forests of the country, and better means of protection.
