JULIAN BYRD - - - - - Message

The proposition to form an irrigation district of Harney Valley has opened up a discussion that will bring about a more general understanding of such matters. It has brought out many complications not realized before the law was investigated. With portions of the proposed district deeded and a considerable amount yet not patented conditions are not the most favorable to such an organization at this time. While an irrigation district is desirable it is not necessary to advanced the interests of irrigation at this particular time.

However, a meeting of the people of this section to discuss the water problems would be a great benefit. The present work being prosecuted by C. M. McConnell and his associates with a view of ascertaining the possibilities of the Silves Valley reservoir is along the proper line and the work should receive the loyal, moral support of all concerned. We should encourage every effort along this line. A favorable attitude of the land owners and water users will do much towards encouraging investigation. There is a tendency in this direction. The larger holdings are in line for such progression which is certainly encouraging.

The Times-Herald believes a meeting of all concerned will prove a big help toward this end. The importance of crystallizing public thought is a factor in bringing about desired results. The future of the country depends upon its being irrigated and brought to a high state of cultivation.

Let us have a meeting at some convenient time to concentrate our energies along this line even though the irrigation district is not formed until a latter date.

At the regular meeting of the Commercial club last Tuesday evening the advisability of placing a small bounty of jack rabbits

was discussed. Also the proposition of securing an appropriation from the legislature for the experiment station in Harney Valley. The rabbit nuisance is a problem that should have the attention of the entire Eastern Oregon county. No doubt members of the legislature from the territory will look after the interest of their constituents. The experiment station appropriation will certainly receive due consideration at the hands of Senator Parrish and Representative Brooke. With federal backing and the support of the Agricultural College, coupled with the importance of such a move to the entire state it should not be a hard matter to secure favorable consideration of this measure.

PIONEER WOMAN DEAD.

Mrs. Almada White died at her home in this city early Thursday morning from dropsy. She would have been 52 years old on Dec. 15. She had been ill for some time but her death was not expected at this time as she seemed to be better. Her niece, Miss Mary Caldwell left her a few minutes before to build the fire in the kitchen, her aunt saying she desired to go to sleep. After getting the fire started Miss Caldwell returned to the room to see if she could do anything for the patient and found her dead.

Almada Caldwell was born in Jefferson, Oregon and later the family moved to Canyonville in Jackson county where she was married in 1875 to Peter F. Stenger and came at once to Harney Valley where she had resided almost continuously since. Her first husband died in 1897. She was married twice since first to Willis Jordan and later to a man named White. She was the mother of seven children: Clara, Beattie, Lee (deceased), Frankie, Cal and Peter by her first husband and Tommy Jordan,

the latter being the only child here at the time of her death the others being in California with the exception of Cal who is in Montana.

She is also survived by her mother Mrs. C. M. Caldwell and one brother, Lee, of this city; two other brothers, John Caldwell, lives at Wheatburg, Wash., and Henry Caldwell of Lake county, also a sister Mrs. Florence Clark.

Mrs. Whith was one of the best known pioneer women of this section and many old time friends are left to attest her cheerful disposition and generosity.

The funeral services were held yesterday afternoon at the residence and were conducted by Rev. A. J. Irwin of the Presbyterian church. The funeral was largely attended by old time friends of the deceased and her family.

RAILROAD TO BURNS.

A new map gotten out by the Oregon & Western Colonization Co., successors to the Road Grant lands, which shows their land and also gives the line of the railroad shows Burns as being on the line. It is known that this company is close to the Hill interests and they certainly know something of the proposed line of road. According to this map the railroad follows the land grant across this valley and on west through Sage Hen. This survey had been made and considered feasible by engineers sometime ago but it was not known whether the line would go that way. This map would indicate its adoption.

When you have a cold get a bottle of Chamberlain's Cough Remedy. It will soon fix you up all right and will ward off any tendency toward pneumonia. This remedy contains no opium or other narcotic and may be given as confidentially to a baby as to an adult. Sold by all good dealers.
