 Three Months ..... .75

JULIAN BYRD - - - - - Manager

Washington advises the state that of the \$45,000,000 allotted for government irrigation work the first of this week Oregon receives \$925,000 to be applied toward completion of the Klamath and Umcilla projects. Mr. Lafferty has undertaken the job to change this state of affairs when he goes to Congress but if the present plans are carried out Oregon will receive nothing for new work until 1915. Should Mr. Lafferty succeed in getting appropriations before that time he will have accomplished something. We are of the impression that every feasible project in the state will have been undertaken by private enterprise ere that time, however, and we will have no place to use government money although Oregon has contributed a greater amount to the reclamation fund than any other state. The reclamation funds are being handled something like the Pinchot brand of conservation—the other fellow gets it all.

The Times-Herald has received a copy of the Great Northern booklet "Oregon". It is one of the best and most accurate compilations of information covering the interior of the state ever gotten out. There are a few minor errors that do not detract from its general purpose to any extent. General Passenger Agent Ellison writes that 20,000 of these pamphlets were distributed by the Great Northern at the land and irrigation congress Dec. 4 at Chicago, and the exhibit car which is now travelling through Eastern States has drawn another 20,000 from the supply. This booklet will do much to draw attention to the interior of the state and augmented by products shown in the exhibition car will bring people in large numbers.

The Times-Herald is pleased to note the increasing interest of its readers in the advertisements

and the splendid results therefrom. Several particular instances of late have brought this matter to the attention of the management in a very gratifying way. Placing its advertisements before readers in an attractive manner has done much toward this end and we appreciate the increasing patronage of local business men to such an extent that our equipment and workmanship will always be kept up to demands.

#### READERS GET BENEFIT.

Ben Brown, of the big mercantile establishment of N. Brown & Sons, is authority for the statement that it pays to advertise in this country. The big pre-inventory reduction sale of that firm during the last month has been one of great volume and fully came up to all expectations. That establishment will conduct a sale of seasonable goods during next month and will have important announcements to make next issue. Those who read the advertisements are the ones who receive the benefit.

I. Schwartz of the Busy Corner Store starts his big sale on next Monday. He has an ad in this issue that should be the means of his disposing of a great volume of goods and the purchaser save a good sum. Mr. Schwartz wishes to put in all new goods when he moves into the Masonic building and is therefore making a reduction.

These advertisements should and will be read by all careful buyers and they will receive the benefit. By using such methods of publicity local business men secure a larger trade and keep a great amount of business that would otherwise go to outside points. These sales are legitimate and the local merchant is entitled to a profit and preference.

School suits at Schenk Bros. If you want to make a trade, sell your relinquishment or other property the Inland Empire Realty Co. will be of great assistance to you. They have sold others and can sell yours.

Every family has needed a good, reliable liniment. For sprains, bruises, soreness of the muscles and rheumatic pains there is none better than Chamberlain's. Sold by all good dealers.

#### ESTABLISH WATER GAUGES.

C. B. McConnell of the Silvies River project spent a portion of this week on Harney and Malheur lakes with his engineers establishing water gauges to determine the inflow of these two bodies. The lakes are now at low stages and by establishing marks the intake of the next season will be accurately secured. This plan of ascertaining the run off of the streams has been overlooked in the past and it is of much importance. Mr. McConnell is going at his work systematically and when taken up for final work his company will have accurate data and be in a position to know just the amount of water available for irrigation purposes.

#### COMING TO STAY.

A letter just received from W. C. Parrish, who contemplates installing an irrigation system in this valley by pumping, states he will be in Burns again in about two weeks to remain permanently.

Mr. Parrish enclosed some newspaper comments and descriptions of plans similar to the one he proposes here which we will give extended notice next issue. Our space will not allow such mention today.

#### LOCAL OVERFLOW.

LOST—On main street a small silver shoe containing a tape measure. Return to this office.

Look for green tags at Brown's Satisfactory Store this month. Everything reduced will be marked "reduced" on green tags.

Hon. A. W. Gowan expects to leave at once for Portland and Salem to be absent some time. He will remain in the state capital for at least a portion of the legislative session.

Herbert and John Lewis, nephews of Simon Lewis are here from Lakeview on a visit. The young men had not been to Burns for a number of years and naturally see considerable change

The quicker a cold is gotten rid of the less the danger from pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all good dealers.

ESTRAYED—From the Settlemeyer farm in Sunset last summer a bay mare with white spot in forehead, weight about 1150 lbs branded 700, the six being a continuation of the stem of the seven on left stifle, black sucking unbranded colt following her. Suitable reward for her return or information leading to her recovery.

E. E. LARSEN,  
 Harney, Oregon.

The post office receipts for this month at Burns shows a substantial gain over the corresponding month last year. Christmas week receipts were very heavy but Post Master Loggan had not figured the total accurately today. Receipts show \$460.75 to this morning. There were 416 money orders issued covering \$2995.25. 228 money orders paid \$1394.74. Registers to the numbers of 293 and 664 registers received. The service has been exceptionally good during the rush Post Master Loggan securing additional help. The Kellogg Stage Co. did good work in getting the mails in on good time.

Everything that is reduced will be marked with large green tags at Brown's Satisfactory Store during December.

#### NOTICE FOR PUBLICATION

UNITED STATES LAND OFFICE,  
 Burns, Oregon, December 10, 1910.  
 Notice is hereby given that Phil Hochhaus, whose post-office address is Burns, Oregon, did, on the 21st day of March, 1910, file in this office Sworn Statement and Application, No. 9407, to purchase the S1/2 NW 1/4, Sec. 27 and SW 1/4, Section 22, Township 20 S., Range 21 E., Williams Meridian, and the timber thereon, under the provision of the act of June 8, 1908, and acts amendatory, known as the "Timber and Stone Law," at such value as might be fixed by appraisement, and that pursuant to such application, the land and timber thereon have been appraised, the timber thereon being estimated at \$10 per M. and the land \$2000; that said applicant will offer said proof in support of his application and sworn statement on the 21st day of February, 1911, before the Register and Receiver, at Burns, Oregon.  
 Any person is at liberty to protest this purchase before entry, or institute a contest at any time before patent issues by filing a corroborated affidavit in this office, alleging facts which will defeat the entry.  
 W. M. FARR, Register.
