**APPROPRIATES FOR THE DRY FARM.**

County Court Most Liberally Provides For Experiment Station.

The County Court has been in session since Wednesday with Judge Thompson and Commissioner E. P. Sylvester as the new members and Geo. A. Smyth as the holdover commissioner. Judge Wm. Miller is acting as county attorney.

The court has a great mass of business to transact at this term and will not complete their work until next week.

So far the most important order made was the appropriation for the proposed experiment farm. The court took a very liberal view of this important matter and its action receives the commendation of the people. The appropriation of \$15,000.00 for this purpose is a step toward development and shows the progressive spirit of the new court. It is not extravagance in any respect, for it will not likely require the full amount and if it does the money is well invested as the land, equipment and whatever improvements are made belong to the county.

Of course this appropriation is conditional, but was necessary at this time as it is necessary for the county in which the experiment farm is located to furnish the land and necessary equipment. The action of the court is a strong card toward securing the farm for this county.

The order of the court after citing the conditions governing the establishment of the farm says:

"And it further appearing that the amount necessary for such equipment is at this time unknown and the court appreciates the necessity and great advantage to the county and the taxpayers generally this farm will mean, and being impounded by a large number of the heaviest taxpayers in the county thereto.

"It is therefore ordered and there is hereby appropriated out of the general funds of this county to be used in the purchase of equipment for an experiment farm to be located in this county the sum of \$15,000.00 or so much thereof as is absolutely necessary to purchase such equipment as the proper authorities deem necessary for such experiment farm."

On petition of forty-six taxpayers a road district was created to be known as No. 5. The boundaries are: Commencing at the southwest corner township 23, thence north along the range line between range 31 and 32; thence following the north line to the northwest corner of the Drewsey road district; thence south and southeast along the Drewsey road district line to the range line between range 34 and 35; thence south along the range line to the southeast corner of township 23; thence west along same township to place of beginning. The petitioners also asked for the appointment of Joe Clark as supervisor of said district and he was appointed for the ensuing year.

The report of county expert Sterling was approved and accepted.

It appearing that the work of the assessor has greatly increased and prospects for a greater increase for the coming year, the assessor was authorized and empowered to appoint a suitable person as his deputy between the 1st day Feb. and 1st day of Nov. of each year at a salary of \$100 per year.

Viewers ordered to proceed to lay out county road to the west of Burns as petitioned for by Geo. Young and others.

An order was entered requiring road supervisors to make detailed reports of all work done, showing amounts paid for what, where and when, etc.

No new school district may be created in future during months of July, August, Sept. or Oct. by an order made. This is to prevent confusion in boundaries.

The tax levy has been fixed at 10 mills, the same as last year. While the court was not fully settled as to how the funds should be divided this morning it is likely the amount will be apportioned: State, 1.8 mills; school, 1.8; high school, .5; road, 1.4; county, 4.5. It is not deemed necessary to provide funds in the building funds as there is sufficient balance to cover such incidentals. On account of more taxable property this levy will provide an increase of money available for the coming year, besides the state tax will be \$3,000 less than the previous year.

The election of teachers for the high school which has generally been at the January term of the

high school board, we understand has been postponed until later possibly in March.

The county court has yet to appoint road masters for four districts, a stock inspector for the year, etc. In addition to this there are more road matters, liquor licenses and the bills to audit.

Federal Support Assured For Dry Farm.

The following has just been received by this office from the Oregon Agricultural College at Corvallis:

Word has been received by President W. J. Kerr, of the Oregon Agricultural College, from the authorities at Washington that the support of the Federal Government is assured for the extension of the agricultural experimental work in the state of Oregon.

Letters and telegrams from Samuel Fortier, chief of the Bureau of Irrigation Investigation at Washington, and from Dr. Carlton, state that the appropriations for the work in Oregon will, in all probability, be passed by Congress.

The plans for the extension of this work have already been presented to the Board of Regents of the College and have been approved by them. The assurances from the Federal Government that they will be in a position to co-operate with the state in this work leaves the matter ready for presentation to the state legislature. The state will be asked to provide only one-half the cost of maintenance. The various localities in which the work will be carried on have offered to furnish the land, fences and other equipment.

The work will be carried on in co-operation with the Agricultural College. Experiment stations are to be established in Central Oregon, Southern Oregon and extensive irrigation experiments will be carried out in the Willamette Valley. The Central Oregon station will be concerned principally with experimental work in dry farming. The Southern Oregon station will take up investigations in horticulture, dairying, vegetable raising and other branches of agricultural work. The irrigation experiments will be carried on throughout the Willamette Valley for the purpose of determining what can be done to increase the productivity of this section of the state.

JULIAN BYRD - Manager

The Times-Herald is pleased to see the county court take proper steps looking to the establishment of the dry farm experiment station in Harney county and the liberal manner in which provision was made. The members of the court realized its importance and arose to the situation without hesitation.

The Times-Herald is in receipt of the January number of the "Pacific Northwest" which contains a fine article from Prof. Thomas Shaw, the great agricultural expert, who visited us last fall, on the advantages of the Pacific Northwest to the home-seeker. It also contains a very complete writeup of interior Oregon by "Rabbitville" Addison Bennett. The "Old Man" starts his article with the sentence that he's going to tell the truth about it—and he does as near as Bennett can tell the truth. He gives Harney county the most complete description every published by a paper in the west as far as we know. "Old Man" Bennett has the thanks of this section for such an article.

**PRESBYTERIAN CHURCH MEETING.**

The Presbyterian church, of Burns, held its annual business meeting last night at the church. The attendance was fairly good. A. J. Irwin acted as chairman and Mrs. W. L. Blott was elected secretary. Reports were had from the different departments of the church. Mr. Archie McGowan was elected trustee for three years; Mr. Gault was re-elected treasurer; Mr. W. L. Blott, Mr. Archie McGowan and Mr. Julian Byrd were elected the finance committee; Mr. Arthur Whitney and Mr. Archie McGowan were chosen ushers.

The time of the annual church meeting was changed to the second Friday night after New Year.

The matter of a new church came up and was discussed at length, and resulted in the pastor being instructed to write the Board of Church Election asking it to submit plans of buildings and as soon as such plans are received another congregational meeting is to be called. It looks quite probable now that the Presbyterian congregation in Burns may have a new church home in the near future.

**COMMERCIAL CLUB ELECTS.**

The annual election of officers of the Burns Commercial Club was held at the regular meeting Tuesday evening. Hon. Frank Davey was elected president; Sam Mothershead, secretary and L. M. Brown treasurer. The new executive committee consists of C. H. Leonard, J. J. Donegan and Wm. Farre.

Matters of interest and importance were discussed by those present among them being legis-

lation for the proposed dry farm experiment station. C. H. Leonard and C. F. McKinney were appointed a committee to wait upon the county court to enlist assistance in this matter. J. E. Rounseville of Denio suggested a mail route through Catlow valley to proper connections with Denio and the club will take the matter up.

Irrigation, city improvements and kindred matters were also discussed.

The club is planning active work for the coming season and with its progressive officers and loyal support of the citizens it should make a good showing.

**LOCAL OVERFLOW.**

See Schenk Bros. ad 25 per cent off.

Ira Mahon made a business trip to our city Monday.

15 per cent off on all Winter underwear at Schenk Bros.

Frank Cawfield and Ed Anderson were up from Narrows this week.

Hagey & Richardson carry the best brands of groceries. All fresh.

C. H. Voegtly expects to leave tomorrow morning for Portland and other points.

Everything for every body at the Lunaburg, Dalton & Co. Department Store.

I. L. Poujade and Chas Davis were in from Cow creek in the former's auto the first of the week.

The personal attention given guests at the French Hotel has given it a good reputation—L. B. Culp, Prop.

Mrs. W. W. Drinkwater underwent an operation Thursday by Drs. Marden & Griffith. The lady is doing well.

Sidney Comegys, road master of the second district, has been in the city this week attending to business with the county court.

All goods at the Hagey & Richardson general merchandise store are new and up to date. Good values in every purchase.

If you want to make a trade, sell your relinquishment or other property the Inland Empire Realty Co. will be of great assistance to you. They have sold others and can sell yours.

Dalla Turner came over from Diamond Monday. This is his first visit to Burns for a year. He spent last winter in Missouri with his father. Dalla was married last April in Vale.

The Odd Fellows and Rebekahs will hold a joint installation of officers this evening at the Odd Fellows hall. The ceremonies will be followed by a big banquet.

W. Sturges, one of the energetic homesteaders of the Silver creek section, was a business visitor Thursday. Mr. Sturges is well pleased with that portion of the country and considers he has one of the best pieces of land in the west.

A. Venator, the Crane Creek stockman, is in the city. He reports stock wintering well. Mr. Venator has but recently come out of the hospital at Ontario where he was confined for over a month suffering from rheumatism. He has not fully recovered yet but is much improved.
