**SCHENK BROS. Burns, Ore.**

**25 Per Cent. Off**

We hope to have a good season for crops the coming year and the rabbits will cause considerable damage unless we exterminate a large number during this season of the year when conditions are right for such work.

**WOULD BENEFIT SOUTH END.**

A Caldwell, Idaho, paper states that the Short Line railroad has made official announcement that work will be started on the proposed new line from that place south to Winnemucca, Nevada, in the spring. This line is surveyed through the southern portion of this county and should it build along this route would benefit the land holders and settlers in that section very materially.

**MR. BEEBE DIES.**

O. P. Beebe, the unfortunate man mentioned in our last issue who was kicked on the head by a horse which fractured his skull, died last Monday evening at the hospital having never regained consciousness.

A message was sent to his family at Seattle and his son is now en route here to take the body to Seattle for interment. The son is coming by Shaniko and Prineville and has missed connections and met with delays that were unexpected. Some one who is not familiar with the most direct routes into this section has evidently directed him to come that way rather than by way of Baker.

Mr. Beebe leaves a wife and four children. The son who is coming is a married man and has one child.

**A JOLLY GOOD TIME.**

Some sixty friends went out to the hospitable country home of Judge and Mrs. H. C. Levens last Saturday evening upon an invitation to "Down der Dutch."

Two large bob sleds and an auto were used to take the party out and back and it was certainly a noisy, jolly crowd that awakened those inclined to be sleepy as they started on the trip. All kinds of instruments were put to use and there was singing, horns, bells, drums and almost everything imaginable to make a noise.

Judge and Mrs. Levens were assisted in entertaining by Mr. and Mrs. H. B. Mace, Mr. and Mrs. A. C. Welcome, and Mr. and Mrs. J. C. Welcome, Jr. The ladies were dressed in costume appropriate to carry out the effects of a Holland party. Several of the guests were also costumed for the occasion.

The handsome parlors were decorated with the national colors and Holland scenes adorned the walls. Each lady was presented with a pair of miniature wooden shoes on which was found the table number at which they should begin playing "500". The gentlemen each received a miniature "stien" on which was indicated like information.

The cards numbering the tables and the score cards were also of Dutch design—in fact everything was carried out in a most pleasing manner. At the close of the hands it was found that Mrs. E. E. Purington and Mrs. A. O. Faulkner had made the highest scores among the ladies, Messrs. Wm. Farre and Ed Egli receiving like honors among the men. Mrs. John Gemberling and Mr. Alex Hanley were awarded the consolations. The handsome prizes awarded were in keeping with the "Dutch" features of the entire party. Those not receiving a prize were then permitted to draw numbers for another prize the lucky numbers being held by Miss Martha Hanley and Mr. R. T. Hughet.

A most delightful supper was served in two large rooms upstairs which was complete in every detail.

It was one of the most successful and enjoyable society events of the season and one which will long be pleasantly remembered by the many friends who attended.

iod and includes the East and West line through Harney county. Whether this will be among the first extensions to be put through has not been announced. Of the proposed new work the Oregonian says:

The East and West line through Oregon via Malheur canyon, rights of way through which were recently completed by the acquisition of a 70-mile strip held by the Hill interests, also may be included. This track it is figured, will connect with the Deschutes road.

Long before the directors met in the East yesterday the local chiefs of the Harriman system were busy mapping out the course that will be pursued in the next six years, the time designated by Judge Lovett for the expenditure of the money. First of all the territory was investigated to determine what new lines would be required and what ones would be likely to net the biggest and quickest returns. Then, after careful analysis, recommendations were made to the New York office for the construction of certain new lines and for the double tracking of the Columbia River Road from Portland to Huntington, which is to be one of the first pieces of work undertaken under the new authorization, according to the Eastern advices.

The personal attention given guests at the French Hotel has given it a good reputation—L. B. Culp, Prop.

JULIAN HYRD

Representative Brooke has introduced a bill to change the salaries of officers in Harney county. We'd like to know what officers are to be benefited.

Congress has voted in favor of San Francisco and against New Orleans as the city in which an exposition to celebrate the opening of the Panama canal in 1915 shall be held. This is gratifying to the West as the Pacific coast is the proper place for such a celebration.

last issue of The Times-Herald stating that homesteaders may assign a portion of entries within reclamation projects, applies only to government projects. The article was published in a Boise paper without any qualified application and as The Times-Herald had suggested such a privilege be granted under any reclamation project, it took it for granted this applied. We have been put right in this matter after consulting Register Farre of the local land office and hasten to make the facts known to our readers. While this gives relief to some people it doesn't go far enough as homesteaders under private reclamation projects are just as deserving of consideration.

**THE FIRST NATIONAL BANK.**

The stockholders of the First National Bank of this city held their annual meeting last Saturday, electing the former board of directors, who afterward re-elected the executive officers for the ensuing year as follows: John D. Daly, president; C. A. Haines, vice-president; J. L. Gault, cashier; and A. C. Welcome, assistant cashier.

The first consideration of the stockholders of this bank has always been in the interest of safety to its depositors and the funds committed to its charge. Following their past policy of strengthening their institution, the board of directors voted to transfer \$5,000.00 to the surplus fund, thus increasing same from \$45,000.00 to \$50,000.00, which surplus, in conjunction with the bank's Capital of \$25,000.00, gives the bank a combined Capital and Surplus, or working capital of \$75,000.00.

The bank's advertisement this week is worthy of special note as it invites business upon an unusually strong basis, and upon the forceful statement that every dollar of its capital is reinforced by two dollars of surplus, thus affording its depositors an unusual degree of safety. Such a showing has been made possible only through the safe, conservative policy which the bank has so closely adhered to throughout its entire history.

**HIGH SCHOOL NOTES.**

The Harney County High School Literary Society met at the high school building at 2:30, Feb. 3, 1911. The President Helen Purlington called the meeting to order and the following program was rendered:

Song by School

Flow Gently Sweet Afton Reading - Roy Beede

Biography - Percy Davis

Instrumental Solo

Roberta Hibbard

Debate: Resolved, That Bi-Metallism and not Protection is the Secret of Future Prosperity.

Affirmative - Negative

Beatrice Hotchkiss - Juliet King

Richard Ausmus - Etha Cavander

George Baker - Josephine Hibbard

The judges, Nick Voegtly, Ina Terrill and Robert Hibbard decided in favor of the affirmative

Comical Reading - Ruth Smith

Song by School - Annie Laurie

Essay - Nick Voegtly

High School Notes - Ormond Ausmus

Recitation - Louise Williams

Current Events - Frank Foster

Song by School - Those Evening Bells

Critic - Mr. Biggs

**SUMMONS.**

In the Circuit Court of the State of Oregon for the County of Harney.

Elbert E. Cary, Plaintiff,

vs

Aida M. Cary, Defendant.

To Aida M. Cary, Defendant: In the name of the state of Oregon: You are hereby required to appear and answer the complaint in the above entitled suit on or before the twenty seventh day of March 1911, and if you fail to answer for want thereof, the plaintiff will apply to the court for the relief demanded in the complaint, to wit:

For a decree of the court dissolving the bonds of matrimony existing between the plaintiff and defendant and forever divorcing the plaintiff from the defendant and for such other relief as to a court in equity may seem meet and just.

This summons is served by publication by Hon. Dalton Biggs, Judge of the above entitled cause, the 30th day of January, 1911, the time prescribed for publication is six successive weeks, and the first publication of this summons is February 4, 1911.

Wm. MILLER, Attorney for Plaintiff.

The winter has been ideal for fall sown grain so far. The ground has been covered with snow every since freezing weather began thus protecting the grain. With the vast amount of moisture stored in the soil from late rains we may expect good crops the coming season.

**RABBIT DRIVES A SUCCESS.**

The rabbit drives of last Saturday and Sunday were a success and a large number were killed. It has been stated by some attending that quite a few escaped owing to lack of organization of those participating, but this is to be expected as the first attempts are more or less experimental.

The Times-Herald is informed there will be other drives today and tomorrow in the same territory, the wings of fence being in the vicinity of the John Jones place and the drives from the Korten place in that direction.

Grant Reynolds has a scheme that will help materially in exterminating these pests: Mr. Reynolds and Dave Miller tried poison with good results. They took a quantity of strichnine to which they added sugar, making a rather thick syrup. This they placed on some hay and scattered in places where stock could not get to it. They counted 53 dead rabbits the next morning and no doubt as many more were poisoned and moved away from the immediate vicinity before dying. This should be practiced by all who can use the poison conveniently.

It seems that at intervals of several years the rabbits become thick throughout this western country and are a menace for a season or two when their number is again cut down in one way or another. When we secure railroads and people on every quarter section of the land the rabbit pest will be a thing of the past, as will also be the coyote that now troubles the flocks of sheep. All this will come about within a reasonable time, but in the meantime we must do the best we can and get rid of them.

**ENTERTAINED HOME FOLKS.**

After a season of good work by the Mothers' Club in entertainments, bazaars, suppers, etc., to raise funds for the children's playground, juvenile books for the library and other good causes, the mothers decided to spend one evening looking after their own families, therefore the husbands and children were treated to a royal time at the new Masonic building last evening. A short program was followed by a big supper, games and a general good time. The mothers have proven themselves good entertainers and no doubt the husbands appreciate them even more since the "high jinks" last night.

**MUCH RAILROAD WORK.**

A recent meeting of the Harriman directors in New York authorized the expenditure of between \$75,000,000.00 and \$100,000,000.00 in the Pacific Northwest to cover a period of six years.

This means much new construction work during that period and includes the East and West line through Harney county. Whether this will be among the first extensions to be put through has not been announced. Of the proposed new work the Oregonian says:
