JULIAN BYRD, Manager.

The U. S. Senate turned down the resolution to submit a constitutional amendment for the popular election of senators, the resolution lacking but four votes of the two-thirds majority. Senator Borah says he will bring the proposition up again at the extra session. The senate has also voted to send Lorimer of Illinois. Such actions hasten the time of direct election of the abolishment of the body altogether.

#### COUNTY BUYS ROAD MACHINERY.

At the present term Harney County's court has gone on re-

plows; five drags; one Western rock crusher of from sixty to seventy yards per day; one seven-ton road roller with motor; six slusher scrapers and necessary belting, etc. This equipment will be ample for all present needs and is purchased on a guarantee to do the work as recommended or the contract is annulled.

The court has taken no chance in securing this equipment, purchasing from a responsible house and getting just what has been needed for some time. This machinery will be shipped in as condition of roads will warrant; an expert will come to set it up and see that it works satisfactorily.

Among other orders made by the court at this time are: Petition of W. A. Hurlburt and others for a county road west from Narrows to Wagon tire was granted and the road ordered viewed and surveyed.

T. C. Albritton was granted permission to change the county road east of Saddle Butte a distance of 200 yards. The high school board continued the election of teachers to the May term.

#### SCHOOL LAW CHANGES.

The school laws enacted at the recent term of legislature makes some radical changes that are of interest. The following letter sent out by the state superintendent was handed us by Supt. Hamilton:

The laws enacted at the present session of the legislature will go into effect May 20, 1911. The two laws which affect you the most are the Certification law and the Supervision law.

Under the latter, the County Superintendent of each county having more than sixty school districts shall appoint on or before June 1, 1911, four members of a County Educational Board, of which board the County Superintendent is ex-officio chairman. The members of the board receive no compensation, excepting traveling expenses. Members of this board must be legal school voters and no person holding any other county office, excepting the County Superintendent, shall be eligible.

On the first Monday in June the Educational Board shall meet and divide all the school districts of the county excepting first class districts into supervisory districts. No supervisory district shall contain less than twenty nor more than fifty school districts. The County Superintendent shall be counted as a supervisor for one district and the board shall employ Supervisors for the other

districts. The Supervisor shall be employed for not less than ten months each year at not less than \$100 per month to be paid from the general fund of the county.

Certificates: The next examination will be held on June 21, 22, 23, 24. There will be no examination in August, hence all persons whose certificates expire in August, or who wish to take teachers' examinations in order to teach next year should write at the June examination. The new law does away with the county certificates, but you will have authority to issue county certificates on State grades until May 20.

Under the present law applicants must complete the subjects for State certificate within three successive examinations. The new law provides that such persons may complete their examinations under the laws now in force. All persons, therefore, who are writing for State certificates should appear at the June examination.

Applicants for a one year state certificate must make a general average of not less than 75 per cent and shall not fall below 60 per cent in any one of the following subjects: Arithmetic, civil government, geography, grammar, history, orthography, reading, school law, theory and practice of teaching, and writing.

Applicants for a five year state certificate must make a general average of not less than 85 per cent and shall not fall below 70 per cent in any one of the following subjects: Writing, orthography, arithmetic, physiology, grammar, geography, theory and practice of teaching, reading, U. S. history, civil government, school law, psychology, American literature, algebra, physical geography, and composition. Twelve months' teaching experience is required for this paper.

Applicants for a life State certificate must make a general average of not less than 85 per cent and shall not fall below 70 per cent in any one of the following subjects: Arithmetic, writing, orthography, reading, physiology, school law, civil government, grammar, geography, theory and practice of teaching, U. S. history, psychology, American literature, algebra, physical geography, plane geometry, botany, physics, bookkeeping, composition, general history, zoology and history of education. Six months' teaching experience is required for this paper.

Applicants for primary five-year State certificates must make a general average of not less than 85 per cent and shall not fall below 70 per cent in any one of the following subjects: Methods in reading, methods in arithmetic, methods in language, methods in geography, theory and practice of teaching, writing, orthography, physiology, psychology, and in addition thereto shall write a thesis on an educational subject

selected from a list prepared by the Superintendent of Public Instruction. Twelve months' teaching experience is required for this paper which gives the applicant authority to teach only in the first, second and third grades. No examination in English classics will be required in the June examination on account of the lack of time for announcements and preparation. All examinations will be based upon the text-books adopted by the State Text-Book Commission.
