A Handsome Woman

Every woman may not be hand-
some, but every woman should
keep with care the good points
nature has given her. No woman
need have shallow skin, dull eyes,
bloody complexion, who pays
proper attention to her health.
Where constipation, liver derange-
ments, blood impurities and other
irregularities exist, good complexion,
bright eyes and sprightly
movements cannot exist. Internal
derangements reveal themselves sooner
or later on the surface. Headache,
dark rings around the eyes, sallow skin, a
constant tired feeling—mean that the liver
and digestive organs are needing help
and correction. Chamberlain's Stomach
and Liver Tablets give this necessary help.
They work in nature's own way. They do not
merely flush the bowels but tone up the liver
and stomach to fulfill their proper function. So mild
and gentle do they act that one hardly realizes
that they have taken medicine. Chamberlain's
Tablets can be relied upon to relieve biliousness,
indigestion, constipation and dizziness. Sold
everywhere. Price 25 cents.

Sumption on The Farm.

Your oats will not be so apt to
rust if you get them in early.

The more a man goes around,
the less he is apt to develop into
a crank.

Don't be in too big a hurry.
It's unwise to work soil when it
is soggy and very wet. Wait
until it dries into crumbly, work-
able condition.

Now mind this: Make two sow-
ings of clover seed, one now and
one early in April. Use half red,
other half alsike. Do not miss
the alsike.

The more corn the more stock;
the more stock the richer the
land; the richer the land the more
corn,—and there you have a rota-
tion that is sure to bring success.

Entirely too many people in
this world are making themselves
cross-eyed looking for the street
of easy money. This is as vain
and foolish as hunting for the
pot of gold at the end of the
rainbow.

Just as soon as the frost is out
of the ground it will do to sow
onion seed and peas. Beets,
early potatoes, spinach, radishes
and lettuce may be planted early
too. Tender vegetables should
wait until April or May.

It is a mistake to plant the
same types of vegetables in the
same spot year after year; keep
them moving to prevent insects
and diseases from getting a foot
hold, and it is a mistake to for-
get that a garden needs plant
food in order to nourish vegeta-
bles properly. Stable manure
and a sprinkle of bone-meal will
do, nicely.—From March Farm
Journal.

If you have trouble in getting
rid of your cold you may know

erly. There is no reason why a

and it will not if you take Cham-
berlain's Cough Remedy. For

GEORGE FARRENS,

Do you know that of all the
minor ailments colds are by far
the most dangerous? It is not
the cold itself that you need to
fear, but the serious diseases that
it often leads to. Most of these
are known as germ diseases.
Pneumonia and consumption are
among them. Why not take
Chamberlain's Cough Remedy
and cure your cold while you can?
