

INDUSTRIAL NOTES.

(Portland Correspondence.)

No less a financial authority than Frank A. Vanderlip, president of the National City Bank, New York, and formerly an assistant to the Secretary of the Treasury, has handed out good advice to the Oregonians this past week. He says every man should get a piece of land and he urges that now is the time to get it.

Mr. Vanderlip was entertained during the past week by the Portland Commercial Club. He expressed great confidence in the future of Oregon and says the very attractive appearance of the state impresses him with the wisdom of every man securing for himself and family a piece of land, for it will not be a great while until a poor man will be unable to get land.

In discussing the financial situation, Mr. Vanderlip expresses the belief that business conditions in the country at large are taking a hopeful turn. He finds tanks are sound, crop prospects are good and there is general confidence in the future.

The exploitation of Douglas fir will be undertaken by the manufacturers of Oregon and Washington and a fund was set aside at a recent meeting to carry on a publicity campaign. It is felt that with such immense quantities of fir timber available in the two states, it can be given a much wider market in future.

Latest estimates of the number of new settlers who will come to Oregon during the present period of low colonists fares place the figure at 35,000. The movement is said by the railroads to be the heaviest since colonists periods were inaugurated and while not all who come will become permanent settlers, a great proportion will and eventually many who go back will return and make their homes here.

A resolution standing by the legislative appropriations for the state educational institutions was adopted during the past week by the promotion committee of the Portland Commercial Club. The resolution demanded adequate facilities for the education of the young and expresses the belief that the sums set aside by the Legislature are not at all excessive.

Checks are being sent out this week to pay the prizes just awarded by the judges in the prize article contest of the Portland Commercial Club, which secured a great deal of valuable publicity for Oregon and the Pacific Northwest. In all \$5,000 was awarded in prizes among 80 successful contestants. An Oregon man, R. R. Howard, won the first prize.

Pendleton wants more daylight and may turn the clocks ahead one hour on May one. This will give that city Mountain Time throughout the summer, and on October 1 the timepieces of the city will be set back as before. In this way, Pendleton people hope to make the most of the long days of the year.

Invitations have been sent to Oregon people to attend the North Yakima Blossom Festival, April 15-22. At that time there will be thousands of acres of orchards in bloom throughout the Yakima Valley and a visit will be well worth while. Various attractions are being arranged for the entertainment of the visitors.

NEW CLUBBING PROPOSITION

We have arranged to offer in connection with this paper, the new monthly farm magazine just started at Lincoln, Nebraska, by Prof. H. W. Campbell and devoted to the subject of how to farm in the dry country and how to get best results from soil tillage under normal conditions. This paper is Campbell's Scientific Farmer and we offer it clubbed with The Times-Herald both for \$2.50 per year cash. Prof. Campbell's new paper is a monthly, check full of good things, the only paper of its kind in the world, and it embodies the results of the editor's many years of painstaking investigation of the soil tillage proposition.

NOTICE FOR PUBLICATION

UNITED STATES LAND OFFICE, Burns, Oregon, March 2, 1911.

Notice is hereby given that George Edward Parker, of Lawton, Oregon, who, on July 7, 1909, made homestead entry No. 2538, for W. 1/4 Sec. 25, T. 35 N., R. 21 E., W. 1/2, and E. 1/2 Sec. 26, T. 35 N., R. 21 E., W. 1/2, made notice of intention to make Final Five-Year proof, before the Register and Receiver, at Burns, Oregon, on the 9th day of May 1911.

Marlin

Model 1894 Repeating Rifle

This rifle is built for settled districts, where good range and killing power are desired, with safety to the neighborhood.

The Marlin 25-20 is a light, quick-handling, finely-balanced repeater, with the solid top, closed-in breech and side ejection features which make Marlin guns safe and agreeable to use and certain in action.

It is made to use the powerful new high velocity smokeless loads with jacketed bullets as well as the well-known black powder and low pressure smokeless cartridges, and is the ideal rifle for target work, for woodchucks, green hawks, quail, etc., up to 300 yards.

This rifle and ammunition, and all other rifles and shotguns, are fully described in our 20-page catalog. Free for 3 cent postage.
