After reading the outside papers The Times-Herald man finds that Harney county was not singled out by the weather man for the dose given us the first of this week. The storm covered the entire country with snow and ice at Portland, Medford and other supposed favored sections. Harney county has not been damaged as these more fortunate neighbors as vegetation was not so far advanced here and now that "spell" has passed we may expect crops to go forward in a very satisfactory way. The only real damage the cold storm has done, if any, is a possible loss to sheepmen who are lambing. We have heard of no loss, however, and perhaps none have occurred.

The census enumerator found but 904 actual residents of Burns at the time of taking the census last year. We have more people but when some have homesteads and others who make their home here during nine or ten months in the year who have ranches were perhaps enumerated in other sections. It is safe to say Burns has a population of 1200 as we have always claimed.

NEWS FROM VALLEY VIEW.

The famous Bronco squeezer Dick Otley passed through Valley View on his way to Lawen, Friday, he figured on passing the school house about noon, but said to say Dick's Waterbury was slow, and he missed seeing the show. (The big ones.)

C. E. LeMay, Fred Black and State Grange organizer W. R. Gekeler left for Burns on Monday.

Max Plath is on his homestead in V. V. he had some plowing done and is preparing to do some fencing.

Mr. and Mrs. C. E. LeMay entertained a few friends on Saturday evening, April 8, those present being: Viola and Hazel Cobb, Margaret LeMay, Mr. and Mrs. Hoffeditz and daughter Florence, W. R. Gekeler, Arthur Whitney, Thos. Rayercraft and Fred Black. All spent a very enjoyable evening.

There will be a meeting at the Valley View school house on Sunday April 16 for the purpose of organizing a Sunday School. Mr. Whitney will assist us in this work. Everyone is cordially invited.

The Grange had a rousing meeting on Saturday, April 8, and enrolled 9 new members making a total of 36 for the two meetings we installed officers, appointed committees and have everything in working order.

Miss Helene Swain spent Saturday and Sunday at their home in Burns.

Miss Ella Johnson who is attending school in Burns visited with friends in Valley View last Sunday.

ROSE SHOWER.

The "Shower of Roses," in which millions of rosebuds, blooms and petals are hurled from a train of street cars by 200 young women in white and which has become one of the notable events of the annual Portland Rose Festival is to be repeated again this year, probably two and possibly three days of the Festival week, June 5-10. People of the East, and for that matter, very few in this section of the country have ever seen a spectacle like this. The train comprising six cars is headed by a special car containing a large band and as the procession travels through the streets, the thousands of pedestrians lining the route are simply bombarded with the beautiful roses. To add to the charm and interest of the spectacle, the spectators usually engage in a "Rose Battle" pelting the young women with the flowers after they have been showered in the streets.

LOCAL OVERFLOW.

Two of Mr. and Mrs. Needles little children have been ill this week.

FOR RENT--A five room cottage on the Hill. Inquire at this office.

Asst. Supt. Holland of the P. L. S. Co. started for Malheur points this morning in his auto.

Work horses for sale weighing from 1200 to 1500 lbs, four to six years old.--I. M. Davis, Drewsey Oregon.

Dr. Griffith and John Gemberling are trying their luck with the trout on the upper Poison creek today.

J. E. Johnson, an experienced harness horse man, arrived here Sunday with a new trotting filly recently purchased by P. G. Smith out at Payette. She is a high bred animal and should be fleet. Mr. Johnson will remain here for the season and will have charge of a string of horses at the fair grounds.

R. D. Cooper and M. V. Dodge, the civil engineers in the employ of C. B. McConnell and his associates have been out assisting in the work of gaging the run off of various streams. They are in getting acquainted with their wives and state that the cold weather of the first of this week caused a check in the flow but there is yet a great deal of snow and a few warm days will again start the water down.

Roy Bunyard and wife came down from Harney last Saturday afternoon in company with Chas. Loggan in his auto. That is Roy considered it an auto at the start, but before reaching Burns he thought it a very common kerosene wagon. We have forgotten the number of times the tires punctured and other mishaps--they were numerous and Roy thought he could beat it with a team. However after reaching town and he saw Sheriff Richardson, Roy lays all the blame on Charley's driving.

Dr. Griffith has some practice Sunday afternoon as a chauffeur, taking The Times-Herald force out to Poison creek in his auto. Of course one should not go fishing on Sunday and that possible was responsible for the weather and for a tire to puncture. The experience was novel for all concerned and the Doctor's reputation both as a driver and surgeon on punctured tires is established. The entire party--including the Doctor--were tired of riding at the head of the grade leading down to the Byrd ranch, therefore we walked down. Coming home we faced a blizzard and then it was that Dr. Griffith showed his skill at the steering wheel for the snow blinded us and it was necessary to give the machine a certain brand of "con talk" to make it stay in the road.

Miss Helen Purington entertained the Senior and Junior high school classes at her home last evening. There were several novel and enjoyable features among them being an observation party in which each young man was permitted to converse with a young lady for a period and later all went into an adjoining room where each wrote a description of the young lady with whom he conversed last. Gus Bardwell won the prize. The young ladies had to do a similar "stunt" and Miss Eula McKinnon was awarded the prize. Later in an other game the prize was awarded to Miss Bessie Swain. The place cards were pen sketches of each one present drawn by Armond Ausmus and Allen Borden, they were very attractive and well gotten up. Refreshments were served.

THE OREGONIAN BETTER COME TOO.

Then Find the Way to John Day Wheat Fields From Malheur Canyon.

TO THE EDITOR:

We notice in the Oregonian of the 12th inst. that James J. Sayer "leaves Portland today as an envoy of the 'Oregon Development League' to preach progress in Central Oregon."

And in so doing he will travel "across the plains of Eastern Oregon through the Malheur Canyon, into the wheat fields of the John Day country."

It is to be hoped he may get into the wheat fields of Harney Valley on his travels as, he will then see some wheat fields.

Of course we will receive brother Sayer with open arms and open house and show him some country the like which he will not see either on his way hither or thither.

He will also learn as others before him that all the preaching by all the preachers here and there will not develop this big country with out a railroad.

We have a live energetic and highly intelligent Commercial Club, we can display thousands of letters from outside points which have been truthfully answered and which have failed to bring settlers for the one reason "no railroad" transportation.

We cannot expect settlers to enter a country where rail roads fail to build, you can preach to them that it is necessary for settlement to induce railroads to build and they will turn from you in scorn. It requires some nerve for a poor devil of a settler to resist the tales of the cordon of knoekers which almost surrounds this vast region. They can get through on a rail road but not otherwise.

We will be glad to meet Bro. Sayer and listen to him preach but what we need is railroad construction.

Last year, the worst in this section's history, a farmer eight miles east of Burns, out in the so called "dry section" cleared \$15.00 per acre from 160 acres of grain as his share of the rent, and this without irrigation on ordinary sage brush land--his tenant knows how to farm so called "dry lands." We know the foregoing to be absolutely true--also that we have millions of acres of such land, some for the taking up, some for sale at from \$15 to \$30 per acre, and yet in Harney county alone an empire containing upwards of six million acres of land has but about four thousand population.

We have spent thousands in advertising and I remember about ten years ago an emmigration agent of one of the great railroad systems wrote for data of this country; this letter was handed me for answer; I wrote giving all the information asked, invited the gentleman to come in and verify my statement, and added "I anticipate your answer, you are too far from railroad transportation." He replied, saying, "I was right, but we would soon have railroads." Let us pray. C. C.

Dr. Griffith was called to the Street place on Buck creek Monday afternoon to see a gentleman by the name of Chase who was suffering from an infected hand caused by running a splinter into the thumb. He brought the patient back with him in his auto and he is improving. The high wind and storm that night made the trip rather unpleasant.
